## RESOLUTION STAFF REVIEW

---

May 30, 2013

**Agenda Item Title:** Switchgear Maintenance & Repair Contract.

**Prepared By:** Robert J. Case, WPC Supervisor

**Background/Summary of Proposed Action:**

WPC relies on switchgear, medium voltage transformers, and MCCs for electrical distribution for the entire plant. Without proper maintenance and repair of the aging equipment, WPC would not have a reliable power source. A catastrophic failure (blackout) could result, or power outages for critical areas of the plant. Power outages could cause WPC to violate its permit with excessive discharge of pollutants to the Flint River.

**Financial Implications:**

Please issue a contract for the approved FY2014 budgeted amount of \$18,000.00, total three year contract amount of \$54,000.00. Use account number 590-550.202-930.000 (\$18,000.00) when issuing this contract.

**Budgeted Expenditure?** Yes ☒ No ☐ **Please explain if no:**
