City of Flint 5-Year Financial Plan

Introduction

The City of Flint will be in a positive financial position at the start of the FY2016 budget year for the first time in a decade. None of the City's funds, including its General Fund, will have a deficit. City governance and management will likely be in the hands of the Mayor, City Council, and its professional management team, with oversight from a state appointed Receivership Transition Advisory Board.

Newly enacted charter amendments, ordinances, policies, and procedures provide a path for the City of Flint to move forward in achieving and maintaining sustainable financial solvency. It is only through being a financially stable organization that the City can hope to serve its citizens by working to achieve its stated vision mission, and goals.

The public has recognized the importance of a fiscally responsible approach as well as the value of long-term planning for sustainability. The newly adopted City Charter amendment reads that the budget and corresponding document:

"Shall explain the budget both in fiscal terms and in terms of the work programs, demonstrating how spending priorities are guided by and adherent to the City's Master Plan. It shall outline the proposed financial policies of the City for the ensuing fiscal year and the impact of those policies on future years. It shall describe the important features of the budget, indicate any major changes from the current year in financial policies, expenditures, and revenues together with the reasons for such changes, summarize the City's debt position, including factors affecting the ability to raise resources through debt issues, and include such other material as the Mayor deems desirable. The budget shall provide a complete three (3) year financial plan of all City funds and activities, with five (5) years of revenue projections."

Accountability for achieving and maintaining sustainable financial solvency rests ultimately with the Mayor and City Council, guided and supported by its professionally trained management team. It is their actions which will determine when the City of Flint can be released from state oversight.

The financial plan described here has a five year timeframe, extending from July 1, 2015 through June 30, 2020, or commonly referred to as FY16 through FY20. Budgets are included for FY16 and FY17, and financial forecasts are included for FY18, FY19, and FY20.

The budgets for FY16 and FY17 have been developed within the context of the City's recently adopted Master Plan, the Vision, Mission, and Goals for the City government as recently updated by the City Council, as well as the Budget Priorities adopted by the City Council. The budgets have also been developed in compliance with expectations of achieving and maintaining sustainable financial solvency, as reflected in recently enacted ordinances regarding adequate levels of reserves in the General Fund, Special Revenue funds, and Enterprise funds.

Taken together, the Master Plan, Strategic Plan, and multi-year financial plan constitute the template for moving the City government forward towards the Vision of being, "a well-managed, financially stable, and accountable organization focused on creating a vibrant and growing community which will attract and retain residents, businesses, students, and visitors and improve our quality of life."

The long range financial outlook demonstrates the continuing financial challenges facing the City of Flint. Anticipated growth in current revenue streams are forecasted to be less than the anticipated growth in the expense base, leaving a gap between revenues and expenses every year which must be

addressed. Minimal revenue growth in property tax and income tax revenues, coupled with consistent increases in personnel and operating costs, create a gap which must be addressed by obtaining additional sources of revenue, reducing staffing and services, or identifying further efficiencies. Given the low level of services currently provided by the City, further reductions in services would be very difficult; however, attempting to provide services at a level which cannot be supported financially is unacceptable.

There are also more near term financial challenges which must be addressed as well. Public safety services are supported by two separate voted millages generating more than \$5 million annually in total. Both are up for renewal in 2017 and greatly affect the projected budgets. Failure of either would be disastrous, in that those two sources provide 20% of the financial support for police and fire services.

At the same time, the State of Michigan's more than \$2.5 million appropriated annually for the City lock-up, the state troopers provided to support city police officers, and the assistant prosecutors supporting County law enforcement provide invaluable assistance in support of local public safety services. Replacement of these resources and revenues from other city revenue sources would be impossible. This fact illustrates the persistent financial challenges that the City will continue to face with its finances and the necessity of continued partnerships and support from all.

A third major potential challenge to the City's financial solvency remains the issue of retiree health care. Decisions to reduce – but not eliminate – health care for current retirees accomplished some \$5 million in cost reductions for the City, and was an essential part of the City's financial recovery. However, the lawsuit filed over the action remains active, and should there be an unfavorable decision against the City, the financial repercussions would significantly impair the City's return to financial solvency.

This document is designed to provide information and tools for understanding the difficult choices that will continue to need to be made and also the way that City services are being planned and delivered in a manner consistent with the Master Plan, Strategic Plan, and Capital Improvement Plan in order to fulfill the mission of the City of Flint Government and "assure that residents, businesses, students and visitors in the City of Flint receive municipal services in a customer friendly, financially responsible, and equitable manner in order to insure equality of opportunity for all persons."

Background

The City of Flint has been in state receivership since December, 2011, as a result of consistent deficits in the General Fund, a decline in pooled cash, unrealistic budgeting, and unfunded liabilities for postemployment benefits. This was all compounded by the effects of the recession of 2008, which greatly reduced state and local revenues. Significant progress has been made in addressing these financial issues, as the \$19.1 million deficit at the end of FY12 was reduced to \$9.0 million at the end of FY14, and legacy costs were reduced from \$850 million to \$240 million. The City's cash position has been significantly improved, and the FY15 budget was realistically balanced and is on target to reduce the deficit to \$7 million. Plans are underway to finance the remaining \$7 million deficit with a loan from the state.

Organizational changes have been made and new financial policies and procedures put into place to provide the tools for achieving and maintaining financial solvency. Flint voters approved the creation of a Charter Commission, charged with reviewing the decades old City Charter. New ordinances have been adopted requiring long range strategic planning, multi-year budgeting and forecasting, and the maintenance of adequate financial reserves in city funds.

With the financial progress made, including the elimination of the deficit, and with the organizational changes in place, City operations will soon be taking the next step towards returning to home rule, consistent with PA436. Mayor and Council will resume their executive and legislative roles, subject to the organizational changes made by the various Emergency Manager Orders, and the oversight by a state appointed Receivership Transition Advisory Board.

The City will fully exit state receivership at the point in time that the actions of the Mayor, Council, and Administration demonstrate to the satisfaction of the Governor that the City is financially stable, on a path which assures continued financial stability, and is no longer in need of state oversight.

Financial Challenges

Resolving the near financial insolvency of the City has required hard decisions and sacrifices for all. The FY13 and FY14 budgets were balanced through a mixture of significant revenue increases, significant expenditure decreases, and steps taken to reduce legacy costs. Revenue increases included a 25 percent increase in water and sewer rates, passage of a 6 mill property tax increase for police and fire; establishment of a special assessment district for street lighting; and implementation of a fee sufficient to cover the cost of waste collection. Expenditure reductions included elimination of 20 percent of the City's workforce; compensation decreases equivalent to a 20 percent wage reduction for remaining employees; and the restructuring of health and retirement benefits for current employees and retirees necessary to develop a credibly balanced spending plan. Further reductions were necessary in FY15, and of necessity, required significant reductions in public safety positions. Even with the voter approved millages, the City was left with police staffing far below the levels in comparable cities.

Restructuring

Significant organizational changes have been made as well. City waste collection is now operated under contract with a private company; City 911 operations are being consolidated with the Genesee County 911 Consortium; and on January 2, 2016, the City-funded 68th District Court will become part of the County-funded 67th District Court. All of these actions, as well as others, have resulted in significant cost savings to the City while at the same time maintaining or improving those services.

The actions taken to restructure healthcare benefits for current employees and retirees have also had a significant impact on reducing both current costs and long-term liabilities. The 20% reduction in the workforce required significant reorganizational activities focused on reducing current costs. Long term liabilities were reduced by eliminating traditional defined benefit pension programs for new employees in favor of hybrid plans; by moving the City's retirement system into the state wide retirement system; by restructuring health insurance benefits for current employees and placing retirees into those same plans; and by eliminating the promise of retiree health care for new employees in favor of providing retiree medical savings accounts. This restructuring, which was implemented during the course of FY12, has reduced the City's OPEB liabilities alone from \$850 million to \$240 million at the end of FY14.

Legacy Costs and Legal Challenges

The steps taken to begin to restore the City to financial solvency have not been without conflict and changing circumstances. A significant legal challenge has been made to the decision to move retirees from their historical health insurance plans into the same plans offered current employees. This action resulted in an initial cost reduction in FY13 of \$3.5 million to the City and imposed deductibles and co-pays on retirees. Because of a stay initially imposed by the federal court in FY14, the City was required to increase its budget for retiree healthcare costs in the FY15 budget by \$5 million. However, the injunction was subsequently modified, and the City was permitted to implement a significant portion of the initial changes. This action provided some financial relief to the City, but the risk remains that budgeted healthcare costs will increase significantly should the lawsuit result turn out to be unfavorable for the City.

Legacy costs in total will continue to be a cost burden to the City of Flint. In FY 16, pension and retiree health care is now projected to cost \$31.7 million, or approximately 20% of total projected expenses. \$17.3 million is borne by the General Fund which equates to 33% of general fund expenses. \$8.5 million is borne by the Utilities Funds, which equates to 13% of expenses. These amounts, while still significant, are less than the \$38.6 million originally budgeted for FY16. By 2020, the obligation for these expenses are projected to increase to nearly 39.6 million, or some 23% of projected total expenses.

Partnerships

The efforts of the City to regain financial solvency have been aided by support from numerous federal, state and private partners. Federal grants for police, fire services and blight elimination and demolition, as well as for transportation, planning and development have substantially assisted Flint's recovery from the bottom of the recession. The White House Strong Cities, Strong Communities (SC2) partnership has provided support for implementation of the Master Plan, including brownfield redevelopment, public safety, and blight strategies. State police troopers have been placed in the City to support local law enforcement efforts, and funds have been allocated to enhance prosecution activities and to operate the City's lock up. The Governor's proposed budget continues this support. New partnerships with Genesee County and surrounding municipalities in courts and 911 will provide significant savings and improved services. Many foundation, nonprofit, business, faith and community partners have come together in the best interest of the city and this collaboration will be critical to continue.

FY16-FY20

The future financial solvency of Flint will continue to be challenged by a continuing structural deficit. Property tax, income tax, revenue sharing and other general sources of revenue are projected to grow by an average of 1.2% annually, while expenses are projected to grow by 2.4%. While a 1.2% gap may not

seem large, it equates to nearly \$1 million on an expense base of \$83 million, which is the projected base for FY18. Addressing this gap on an annual basis is necessary and critical if the City is to regain and maintain its financial solvency.

Overview

The City of Flint has spent much time and effort to plan for the community's future through the adoption of a comprehensive master plan and capital improvement plan, and through creation of an organizational framework focused on the City's updated vision, mission, and goals. The Vision, Mission, and Goals of the City of Flint are detailed in this document, as are specific budget priorities identified by the City Council. It is a core mission of the City that all who live, visit, work, and study in Flint can expect to receive city services in a customer friendly, financially responsible, and equitable manner which insures equality of opportunity for all.

The budgets for FY16 and FY17 have been reviewed and developed consistent with that framework; balanced in a manner reflecting current desire to maintain services, to foster financial stability and to reflect the budget priorities adopted by the City Council.

The decisions incorporated into the FY16/FY17 budget reflect the financial realities of a financially strapped City working to move out of state receivership. Revenues are growing marginally, and the City does not have adequate financial reserves to foster any appreciable degree of security. The anticipated loan which will eliminate the accumulated General Fund deficit does not solve the City's financial problems but does enable beginning to establish adequate reserves.

Financial Outlook

The financial outlook for the City is improved in the short term from the outlook presented last year. With the financial impact of the changes to retiree health care, a lower than expected pension contribution for FY16 and FY17, and the cost reductions from the 911 consolidation and the district Court consolidation, the budgets for FY16 and FY17 are able to maintain the status quo in terms of staffing and programming. This improved condition, however, is not sufficient to significantly increase service levels in any area. It will, however, allow some advance time for considering how future revenue and expense challenges associated with a continuing structural deficit will be met within the context of the City's Master Plan and Strategic Plan priorities.

The spending plan for the City is still reliant upon financial and programmatic support from state, federal, and other sources. Operation of the City's lock up is assumed to be continued based on state financial support in excess of \$2.5 million, while state troopers will continue to assist the Flint Police Department. Activities related to blight management, and implementation of the City's Master Plan are still supported significantly with programmatic and financial support from grant sources.

Staffing

Current staffing for city services is 523 full time equivalents. That number is projected to be reduced to 502 in FY16 and to 470 in FY17. The staffing reductions reflect primarily the 911 consolidation in FY16 and the District Court consolidation in FY17. Other adjustments are also made, including the elimination of 1 fulltime position in Human Resources and Law, as a result of reorganization; the addition of a third position in the Council Office, the addition of an engineering position in Transportation, and the addition of one position in Development and Planning to assist in economic development and business case processing. Funds are also set aside for a contracted service for economic development, and funding for ten part-time police officers is included, seven of which will be paid for and assigned to Hurley Hospital.

Costs, Fees and Assessments

Costs to citizens will be reduced in FY16 as the waste collection fee is reduced by \$20, and property tax, water and sewer rates, remain unchanged. In addition, the \$350 water deposit fee for renters is reduced to \$250. The previously adopted FY16 budget anticipated a 6% increase in water and sewer rates, but that has been eliminated.

FY17 continues the status quo, with the exception of water and sewer rates. A 5% increase in water and utility rates is tentatively included in FY17, but will be reviewed next year prior to implementation. The City is in the process of reviewing the utility rate schedule, and will be using those results, as well as updated expectations associated with the move to KWA, and the results of current efforts to reduce water loss and improve operational efficiencies with the water and sewer systems.

In comparison to the projected total taxpayer impact for the current year, the collective impact in terms of taxes, fees, and charges, including water and sewer, is projected to be a total increase of approximately 1% over the next two years.

Priority issues addressed

Key actions in the FY16 and FY17 budgets which specifically address Council priorities include:

Increasing Public Safety

- Police staffing, which currently includes 99 sworn officers and 15 civilians, is increased by the addition of 10 part-time police officers, and a
 Telephone Response Unit is added as a result of the 911 consolidation. Even though a majority of the new positions in the Police Department will
 be assigned to Hurley Hospital under a contract for services, the addition will give the department more flexibility to deploy full time officers
 where needed. Fire Department staffing of 75 is maintained, and the current level of service will be continued.
- The foundation for increased efficiency in both Police and Fire is being laid with migration to the State Records Management System, and with implementation of appropriate recommendations from the ICMA.
- Reductions in health care and pension costs, and the cost reductions achieved through the 911 and court consolidations have allowed the continuation of current public safety staffing levels through FY16 and FY17, which is one year longer than predicted last year. Going forward, however, voters will need to renew both special millages, or even current low levels of staffing will be at significant risk.
- Over the next two years the Police Department will focus on emerging crime issues as they appear and on increasing community engagement, specifically increasing the number of community centers and building community trust. The Fire Department, in addition to maintaining its response time to alarms at improved levels, will continue to reach out to the community to promote fire protection education.

Reducing Utility Rates and Costs

- The Utilities Division of DPW is committed to providing dependable quality water with investments in both the treatment process in the form of a new filter media and in the distribution system with the first significant pipe replacement project in over a decade. These system improvements will afford a greater opportunity to have stable water and sewer rates while continuing to perform needed maintenance on the system.
- Unfortunately, the maintenance and quality needs of the utility system, coupled with the prior financial deficits in the Utility funds, does not
 permit a decrease in rates. However, the long term impacts of capital investments in the system, including the decision to participate in KWA,
 assures that future rate increases will be less than had the City continued to purchase its water from DWSD.
- With the timing of the capital projects, the restructuring of water related debt, the cost reductions gained from temporarily using the Flint River for supply, and reductions in staffing in the Utilities Division, the 6% water and sewer rate increase included in the original FY16 budget has been eliminated, and so water and sewer rates will be held constant in FY16. However, a 5% increase is tentatively included in the FY17 budget, but that will be reviewed prior to the beginning of the FY17 fiscal year.
- The City's action plan to improve water quality will continue, as will the process of reviewing rate schedules, deposit and turn-on/off fees, with the goal of assisting those who are truly unable to pay.

Eliminating the General Fund Deficit

With the pending receipt of a \$7 million loan from the State of Michigan, the General Fund deficit will be eliminated by June 30, 2015. In accordance with the City Council's recently adopted financial stability ordinances, the FY16 and FY17 budgets will begin to build reserves at the rate of \$1 million annually. As the Mayor and Council continues this practice in future years, it is projected that the financial reserve in the General Fund will reach 10% of General Fund revenues by 2020. While the goal is 15%, these actions represent significant commitment and progress towards sustainable financial solvency.

Increasing Capacity for Master Plan Implementation, Blight Management, and Economic Development

- The newly merged Planning & Development Department (DPD) is focused on creating a vibrant and growing community with a high quality of life for residents, businesses, students, and visitors. Through comprehensive planning, building and safety, blight elimination and neighborhood stabilization, community and economic development, street lighting, and parks and recreation, DPD is actively working to address all of the Council priorities. In addition, DPD is charged with coordinating the implementation of the community's Master Plan adopted in late October of 2013.
- In FY 16 and FY 17, the DPD will prioritize blight elimination and neighborhood stabilization through proactive code enforcement, waste removal, demolition, and housing rehabilitation. Other priorities include: economic development through entrepreneurship and small businesses growth in underserved neighborhoods, construction of quality housing, creation of safe, healthy places for youth to learn and thrive, and enhanced partnerships to provide new resources to the City to carry out the Master Plan. The Department will also improve regulatory procedures like zoning and will develop a business friendly permitting counter to streamline the review and approval processes to facilitate redevelopment.
- Through creative use of grant funding, the City has been able to add much needed positions in code enforcement and blight elimination without
 impacting the General Fund budget. In total, the budget represents 27 full-time and 2 part-time positions. DPD will continue to pursue new
 partnerships and resources in order to grow our capacity to implement the Master Plan and improve services to Flint residents, businesses,
 students, and visitors.
- Additional resources are added to Planning and Development to assure staff is available to support and assist businesses in obtaining necessary
 approvals from the City, and funds are set aside for contracted services with the Flint Genesee Chamber of Commerce

Improving Energy Efficiency

 Addressing a significant goal of improving energy efficiency, a vendor has been identified to develop specifications to improve the carbon footprint of the City, including city facilities and utilities. In FY16 the DPW will identify an energy baseline to work from and prioritize a list of projects, based on anticipated savings. FY16 will also see the completion of converting methane gas from the digester at the Waste Water Plant into energy, which will be used to reduce energy costs. Further cost savings will be realized from securing a fixed rate for natural gas for the next two years

Maintaining Streets and Sidewalks

FY16 and FY17 budgets utilize available funds to address maintenance and improvement of priority needs for bridges, roads and sidewalks, while assuring adequate staff and equipment within budgetary limits to responds to weather events and emergency repairs.

A City Engineer position is added to facilitate engineering services and activities required to design and construct major projects and City performed infrastructure improvement projects. The engineer's work will include routine bridge inspections.

The Street Maintenance Operator/Maintainer Trainee Program will also be resurrected in FY16. Four new trainees will participate in a two-year training series to increase capacity of City crews to perform street maintenance and winter maintenance activities. Winter Maintenance activities will include an allocation to rent three Fendt tractors to supplement City equipment available to perform winter maintenance activities.

Ongoing department activities will include maintaining in-house traffic services, such as installations/repairs/replacement/ and routine maintenance of traffic signals, signs, pavement markings, barricading activities, and traffic control services. Additionally sign upgrades will be conducted in three areas of the City to conform with the Federal Highway Administration's sign reflectivity regulatory mandate. Traffic signals will also be modernized at the intersection of Averill @ Davison; traffic signal upgrades at Ballenger @ Welch, Lapeer @ Court, Lapeer @ Fifth St.; and traffic signals retrofitted at Grand Traverse @ Welch and Dayton @ Welch.

Routine street maintenance activities will continue, including pothole patching, guardrail repair, street sweeping, crack sealing, concrete sectional repairs and paving activities. Funds received from the special state appropriation in FY15 will be utilized in FY16/FY17 to provide supplemental funding for additional paving activities within the local street system (residential areas, approximately 6.5 miles), contracted grass cutting services within the public right-of-way areas (between the sidewalk and curb), in addition to the clearance of tall grass at intersections to maintain sight distance clear vision areas.

Specific projects contained in the FY16 and FY17 budgets include:

Bridge Projects: Preventative Maintenance

- Kearsley Park Blvd over Gilkey Creek
- Barton Street over Thread Creek
- Torrey Road (12th St.) over Carmen Creek
- Atherton Road over Carmen Creek
- Other minor bridges Identified in Annual Bridge Reports

Road Resurfacing Projects

- Fenton Road (Hemphill to I-69)
- Kearsley Street (Chevrolet Ave to Beach St)
- Harrison Street Enhancement

Road Diet Projects

South Saginaw Street (Fourth to Hemphill)

Infrastructure Needs Assessment

• Analysis of Sidewalks/Street Network Needs as defined in the Master Plan

Sidewalk repair

Two Sidewalk Repair Programs will address trip and fall hazards and sidewalks that residents desire to repair. Approximately 250 trip and fall
hazardous sidewalk squares will be repaired by City crews under the traditional Sidewalk Repair Program and approximately 295 sidewalk squares
will be repaired by prequalified contractors under the 50/50 Sidewalk Repair Program.

Tree Management

 Tree Management activities will be funded in partnership with Genesee Conservation District (GCD), including emergency hazardous tree and stump removals, tree trimming and tree plantings. Work with GSD will include the development of a Forestry Management Plan to guide future activities.

Improving Customer Service

Department specific and city wide training needs are budgeted, and customer service training has been identified as a priority. Human Resources, as it did in FY15, is committed to continuing ongoing training for supervisors and will be extending these efforts to all employees. Information Services likewise is committed to providing ongoing training for employees. Finally, most departments are including funds for ongoing training for employees.

Maintaining Parks

The Parks millage fund is being fully utilized to provide as much maintenance as possible. Vendor relationships and expectations are being reviewed and efforts continue to increase the number of partnerships for care and maintenance of Parks.

Parks and Recreation continues actively and aggressively peruse park partnerships with the community and funding for park capital improvements. Parks and Recreation currently has over \$2.17 million in on-going improvements and acquisition projects. Major projects include the construction of the Genesee Valley Trail, improvements to River Bank and McKinley Parks, and the acquisition of property for the Grand Traverse Greenway. Currently, 43 of the 63 parks, community centers and golf courses have formal partnership agreements to improve service, quality, and make minor improvements to the park facilities. Of those 43 formal partnerships, 12 are new for 2015.

In order to increase the level of service, improve maintenance, and leverage additional funding for parks, the City has entered into a number of formal partnerships. Currently 43 of the City's 63 parks, community centers, and golf courses have formal partnerships. 12 of these 43 partnerships were created in the last year. Parks and Recreation department is working to increase this number and the capacity of each partnership group.

Through the Keep Genesee County Beautiful Adopt-a-Park program, 32 community organizations have partnered in Flint parks. With City of Flint assistance, Adopt-a-Park provides organizational capacity, planning, and clean up supplies to all Park Adopters as well as funding for improvements through their Park Tender and Park Keeper programs. Since 2011, \$501,778 has been invested through the Adopt-a-Program. In 2015, KGCB agreed to be the \$25,000 match on a \$100,000 Department of Natural Resources grant for Longway Park Improvements. The 2015 Park Tender program currently has \$56,000 in funding to be spent in 4 City Parks.

Formal use agreements also exist with a magnitude of different community partners for the Berston Center, Haskell Center and Bassett Park, Mott Park Golf Course, Dewey Park, Mobley Park, and Kearsley Park. In July of 2015, Flint Parks and Recreation entered into an agreement with Genesee County Parks Commission to provide maintenance and program in Max Brandon, Flint Lake Park, Thread Lake Park and McKinley Park. At the cost of less than the City spent on mowing, the County provides Park Ranger patrols, mowing and forestry work, and free public programing.

Increasing Community Partnerships

Partnerships with Human Service organizations will be strengthened with the return of a staff position focused on fair housing and other citizen issues that will require outside assistance such as the Keep the Water Flowing fund with the United Way, Salvation Army and Catholic Charities.

Ombudsman and Civil Service

No funding is included for either the Ombudsman Office or Civil Service, pending final action by voters on any Charter changes. Legal complaints will be directed to the City Attorney's Office and employee issues will be handled through the Human Resources Department.

Business licensing

Business licensing will be retained in the Clerk's Office, utilizing BS&A systems, and operating in accordance with established performance standards.

CITY OF FLINT STRATEGIC PLAN

2016 - 2020

Setting a Sustainable Course for the City of Flint

The Vision for the City Government of Flint

A well-managed, financially stable, and accountable government focused on creating and maintaining a vibrant and growing community which will attract and retain residents, businesses, students, and visitors and improve our quality of life

The Mission of the City Government

To assure that residents, businesses, students and visitors in the City of Flint receive municipal services in a customer friendly, financially responsible, and equitable manner in order to insure equality of opportunity for all persons

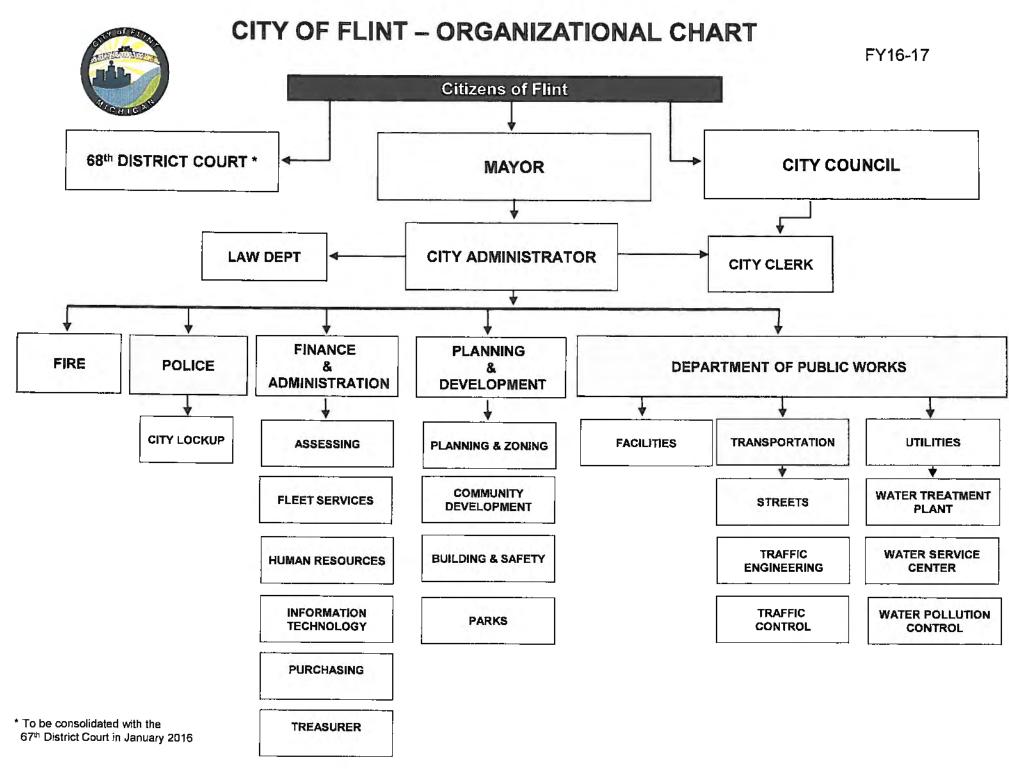

The Goals

In order to operate per our Mission and realize our Vision, residents, businesses, students and visitors can expect that the City of Flint will:

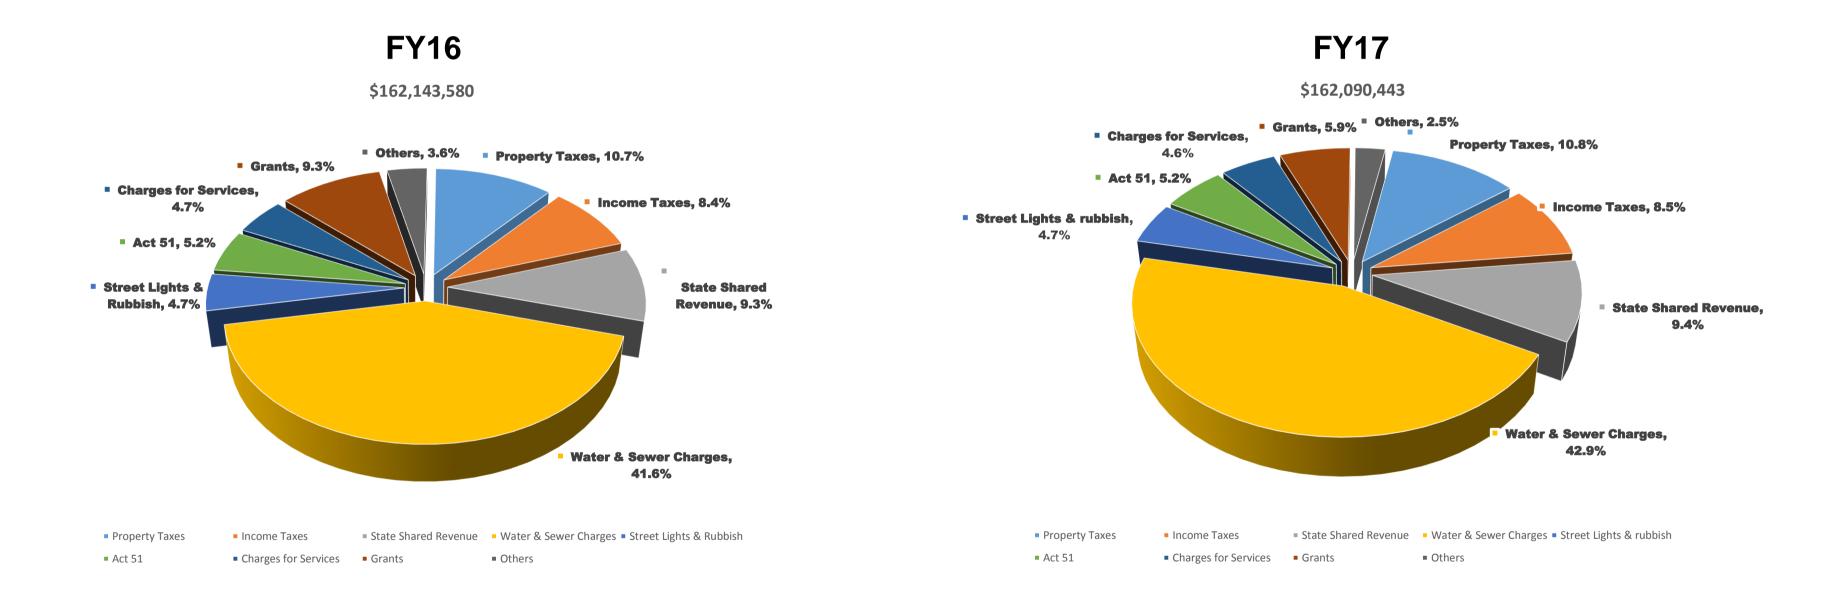

- 1. The City will operate in an open and financially sustainable manner, including improving citizen access, focusing on measurable results, improving the City's financial position and eliminating accumulated deficits
- 2. The City will provide a highly trained and professional staff of elected leaders, appointed officials and employees
- 3. The City will provide for a safe, secure, healthy and clean environment in which to live, work, learn and play
- 4. The City will provide access to dependable, quality and sustainable water and sewer
- 5. The City will provide access to an adequate and well maintained transportation network for all modes of travel serving motorized, non-motorized, and pedestrian needs
- 6. The City will foster cooperation among business, non-profit, higher education, foundation partners, and residents to create a climate that supports economic development with a focus on small business and entrepreneurs in order to build local wealth and enhance the tax base
- 7. The City will seek partnerships with Local, State and Federal governmental partners, and other private entities in order to maximize efficiencies and resources in meeting its Mission
- 8. The City will promote the equal protection of the law for each person in accordance with fundamental human rights

CITY COUNCIL PRIORITIES = 2016 and 2017

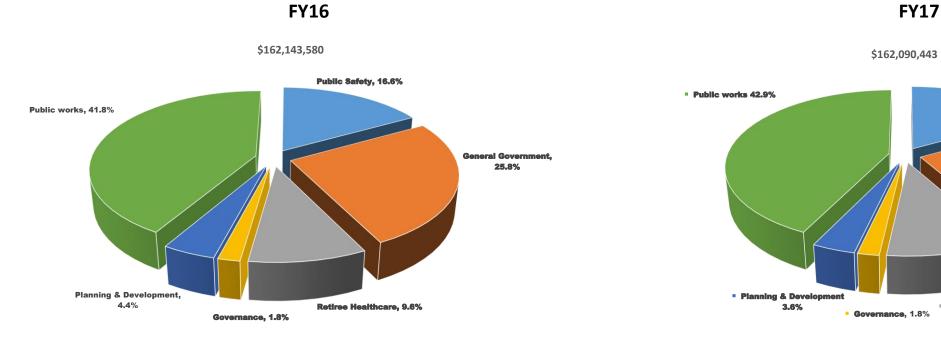

- Increase Police and Fire staffing levels and increase starting pay for Firefighters
- Decrease water and sewer rates while increasing quality
- Reduce the General Fund deficit by at least \$2 million
- Increase capacity to reduce blight, including demolition
- Increase capacity to engage in economic development including hiring Economic Development Director
- Reduce energy costs for the City by 25%
- Ensure the Department of Public Works has tools necessary to provide for street maintenance, sidewalk maintenance, snow removal, and right-of-way tree maintenance
- Improve customer service across all departments through training and technology
- Ensure parks are maintained to the greatest extent feasible, including mowing and tree maintenance
- Ensure capacity and partnerships to continue implementation of Master Plan and Capital Improvement Plan
- Create partnerships with Human Service organizations within the community
- Fund Ombudsman Office in accordance with vote of the public in 2014
- Fund Civil Service Office in accordance with the vote of the public in 2014
- Retain Licensing in the City Clerk's Office

Park Capital Improvements

Parks and Recreation Department currently has a number of active improvement projects, including \$1.8million in State grants for capital investment and acquisition.

- Genesee Valley Trail \$730,000: The City was awarded an MDOT grant to create to extend the Genesee Valley Trail from the Flint Township border to Chevrolet Avenue. Construction is projected to be complete by the fall of 2016.
- Grand Traverse Greenway \$500,000: The City is working on acquiring former CSX rail line for the eventual construction of a multi-use trail. Parks and Recreation is currently seeking an MDOT Administrative Settlement to close the \$95,000 gap in funding.
- River Bank Park Improvements \$400,000: The City was awarded a DNR grant to create an ADA accessible ramp to the amphitheater and stage in River Bank as well as the creation of a canoe launch on the Flint River. Construction is projected to be complete by the fall of 2016.
- McKinley Park Improvements \$300,000: The City was awarded a DNR grant for improvements to the pavilion, playscape, walking paths, and canoe launch. Construction is projected to be complete in the spring of 2016.
- Max Brandon Park \$75,000: The City was awarded a Ruth Mott Foundation grant for park and wet land improvements as well as public environmental education programs. Improvements are projected to be complete in the fall of 2016.
- Brennan Park \$80,000: The City has a combined \$80,000 project, which includes a \$50,000 grant from the Ruth Mott Foundation for new
 playscape equipment, park benches, and adult fitness equipment.
- Park Tenders \$56,000: Keep Genesee County Beautiful will be making approximately \$56,000 in improvements and repairs in 4 City parks this summer.
- Berston Field House \$22,000: The City has dedicated CDBG funding for energy efficiency and capital improvements to the 100 year old community center.
- Haskell Center \$14,000: The City has dedicated CDBG funding for improvements to the soccer and lacrosse fields at the community center.

RESERVE ANALYSIS

General, Special Revenue and Enterprise Funds Projection FY16-FY20

Policy Overview Reserve Requirements by Fund

Projections by Fund:

Funds Supported by General Tax Dollars or Millages: General Fund Police/Fire Millage Neighborhood Police Millage Parks Public Improvement

Funds Supported by Dedicated Funds, Fees, or Assessments: Major Streets Local Streets Street Light Assessment Waste Collection Drug Forfeiture Building Safety

> Enterprise Funds: Sewer Water

(Special Revenue Grant Funds not Included)

Reserve Policy by Fund

Sustainable financial solvency requires that the City have the ability to address unexpected events affecting revenues and/or expenses in a manner which avoids immediate crisis oriented responses. One means of accomplishing this is to maintain adequate financial reserves which will enable the City, should it be faced with sudden unexpected and unavoidable revenue decreases or expenditure increases in the course of a fiscal year, to immediately address most such issues without requiring immediate decisions which seriously disrupt the provision of city services by providing access to a financial resource for a short time. This will allow the City to provide a more well thought out and considered response to the financial impact, preferably in the context of the annual planning and budget review process. Such reserves also have an impact on the City's ability to borrow funds if necessary, by assuring that the City has such capability.

Unexpected events can be such items as: unexpectedly high property tax chargebacks from the county; unanticipated decline in income tax revenues; reduction in constitutional revenue sharing payments; unexpected decrease in water and sewer revenues; unexpected number of water main breaks, road and sidewalk repairs; major equipment failure; unexpected need for major building repairs.

Consequently, reserve requirements are established for funds as shown on the following pages.

Reserve requirements for funds of the City of Flint

| unds supported by General Taxes and/or millages | Reserve regulirement |
|--|--|
| 1D1 General Fund | 15% of the current years adopted amount of General Fund revenues, of which any amount above 5% shall be transferred to the Budget Stabilization Fund |
| 205 Police/Fire Millage | 10% of the current years adopted revenue for the fund |
| 207 Neighborhood Police Millage | 10% of the current years adopted revenue for the fund |
| 208 Parks | 10% of the current years adopted revenue for the fund |
| 402 Public Improvement | One years annual debt service for all debts budgeted to be paid from the fund plus \$800,000 |
| unds supported by Dedicated Funds, Fees or Assessments | |
| 202 Major Streets | 15% of the current years adopted amount of Act 51 revenues for Major Streets plus one years annual debt service |
| 203 Local Streets | 15% of the current years adopted amount of Act 51 revenues for Local streets plus one years annual debt service |
| 219 Street Light Assessment | 15% of the current years adopted revenue for the fund |
| 228 Waste Collection | 15% of the current years adopted revenue for the fund |
| 265 Drug Forfeiture | 100% of the annual budgeted expense from the fund |
| 542 Building Safety | 15% of the current years adopted revenue for the fund |
| nterprise Funds | |
| 590 Sewer Fund | 25% of the current years adopted budget for operating expenses plus one years annual debt service for any debt paid for from the fund. |
| 591 Water Fund | 25% of the current years adopted budget for operating expenses plus one years annual debt service for any debt paid for from the fund. |

Special Revenue Grant Funds

Special Revenue Grant Funds 274,296,297. In which revenues and expenses are to be self supporting, do not have reserve policy requirement

Projection Summary

Purpose: The purpose of a projection summary is to illustrate the degree to which current revenue and expense trends will affect the City's financial position, if left unaddressed. The amount of unreserved fund balances at the end of each year are compared to the amount established as necessary in the fund, according to the City's reserve policies.

Comments and observations: While a substantial number of the funds are in compliance for FY16, several funds will drop out of compliance in FY17 and nearly all funds will be out of compliance by FY19, if actions are not taken annually to address the excess of expenses over revenues, which is systematic of the City's structural deficit. Solvency of the water fund for all years is a clear concern, and while the anticipated loan to finance the GF accumulated deficit will eliminate its deficit, the fund still does not reach the desired level of reserves by FY20. In addition to concerns about the solvency of the water fund without more than a 3% rate increase in FY17, the status of the Police and Fire Millage Fund will be the most challenging to address. While the utilization of millage proceeds over the past few years and into FY16 and FY17 have enabled a continuation of current staffing levels through FY17, the fund will have a \$3.3 million deficit which will have to be addressed through additional sources of revenue (such as a SAFER grant) or reductions in staffing in FY18. Balancing other funds can likely be achieved by reducing proposed expenditures, such as road repair projects, but it will impact the already low level of maintenance. In short, maintaining the City on a path to sustainable financial solvency will require constant attention to the City's financial status, and difficult decisions every year. Without an additional sustainable revenue stream, the City will lbe challenged just to maintain its current low level of services, let alone increasing services.
