PROJECT SPECIFIC REQUIREMENTS – APPENDIX A

PROJECT LOCATION AND SCOPE

The project must be located in Michigan and the scope of the project is outlined in the Grantee's approved Fiscal Year 2022 Scrap Tire Cleanup Program Grant Application.

GRANTEE REIMBURSEMENT

The Grant Amount shall not exceed \$10,000.00, and the Grantee will be reimbursed as specified below, **NOT TO EXCEED ACTUAL COSTS INCURRED BY THE GRANTEE. All other costs associated with the removal of scrap tires, including labor costs, and additional charges for roll-off boxes and dump trailers, etc. are the responsibility of the Grantee.**

The State shall reimburse the Grantee the actual cost, up to \$1,000.00 for an enclosed semi-trailer with less than 500 passenger tire equivalents (PTE), \$2.00 per additional PTE in excess of 500 PTE, not to exceed \$2,000.00 for a full semi-trailer with over 1,000 PTE. ***It should be noted that empty semi-trailers are not eligible for reimbursement under the grant program.*** This payment is for providing acceptable scrap tire collection vehicles at the site of collection, and for the cost of processing and delivering the scrap tires to the End-User.

The State shall also reimburse actual scrap tire transportation costs not to exceed \$1.00 per mile if the collection location is over 100 miles from the processor's location for sites that applied for transportation costs and were approved. The first 100 miles of transportation are covered under the existing semi-trailer reimbursement rate. The combined cost of reimbursement for scrap tire and transportation shall not exceed the approved grant amount.

Tires generated by a business, or a commercial farm are not eligible to received funding under this program and will not be reimbursed. If business or farming tires are accepted at the community cleanup or collection event, the cost for disposal/recycling will be the responsibility of the grantee. Use of grant funding to pay for ineligible activities (i.e., disposal of business or commercial agricultural tires) may result in non-reimbursement of grant funding and may also restrict the grantee from receiving future funding.

GRANT REIMBURSEMENT PROCESS AND GRANTEE REPORTING REQUIREMENTS

The Grantee must first pay the Processor for work completed and then seek reimbursement from the State. If the Grantee is not financially able to pay the Processor prior to seeking reimbursement from the State, then the Grantee may assign its grant payment(s) to the Processor pursuant to Section VII, Assignability, of this Agreement. If the Grantee assigns payment(s) to the Processor, and any payment is intercepted by the Michigan Department of Treasury due to Grantee's outstanding debt to the State of Michigan, then the Grantee is responsible for paying the Processor directly for the outstanding balance due the Processor.

The Grantee shall maintain an accurate count of the number of scrap car tires and scrap truck tires, and oversized tires removed from the site. **The Grantee is responsible for submittal of a COMPLETE Scrap Tire Transportation Record (EQP 5128).** Submittal of incomplete transportation records will delay reimbursement.

A request for payment shall be submitted by the Grantee on a form provided by the State and shall include proof of payment to the Processor or End-User, as applicable, a copy of the Processor invoice(s) and all scrap tire manifests signed by the Grantee, the Processor, and the End-User. Payment reimbursement requests shall be sent to: EGLE-ScrapTire@Michigan.gov.

Within 30 days of the date that the last scrap tire covered by this Agreement was removed from the site, the Grantee shall submit the final request for payment accompanied by a Final Project Report, which summarizes the project.

PROCESSOR AND END-USER REQUIREMENTS

Any tire processor utilized by the Grantee shall be a Michigan-based Scrap Tire Processor (Processor). Refer to Section VIII, Subcontracts, for requirements regarding subcontractors.

The State may approve a written request from the Grantee to change the approved Processor(s) and/or approved Scrap Tire Material End-User (End-User) or End-Users identified in this Agreement.

UNUSABLE TIRES

The State may approve a request from the Grantee to replace an approved End-User with a sanitary landfill, licensed under Part 115, Solid Waste Management, of the NREPA. Such a request may be approved if certain scrap tires covered under this Agreement are in such a condition that the approved Processor would not be able to process the scrap tires into a form acceptable to the approved End-User or if due to decreased end-use market availability another viable end-use market cannot be located. Any Grantee wishing to deliver scrap tires to a landfill after proper size reduction, must contact EGLE for approval. Whole motor vehicle tires are prohibited from being disposed of in a landfill. Reimbursement for landfilling of unusable tires shall not exceed the per tire amount authorized by this Agreement.

NOTIFICATION OF DELAYS

The Grantee shall inform the State's Contact of any delays in the start-up of the project and any delays in progress toward completion of the project.

PROJECT COMPLETION

The State will make final payment after the project is complete. Project completion means all of the following:

- (A) All scrap tires covered by this Agreement have been removed from the site and delivered to the End-User identified in this Agreement by the Processor identified in this Agreement.
- (B) The Grantee has submitted the final Request for Payment form, including all supporting financial documentation, all complete scrap tire transportation records signed by the Grantee, the Processor, and the End-User, indicating the total number of scrap car tires, scrap truck tires and oversized tires removed from the site.
- (C) The Grantee has notified the State that the site is clear of all scrap tires and rims covered under this Agreement.
- (D) The Grantee has provided a Final Project Report that summarizes the project including pertinent dates of events, number of participants, tires collected, pictures (if available), and any other information showing how your project was successful.

The State shall make a determination of project completion based on all of the following:

- (A) A review of the project file, including all Request for Payment forms, all supporting financial documentation, all scrap tire manifests, and all reports submitted by Grantee, Processor and End-User, to verify that the requirements of this Agreement have been met and that the reimbursement amounts are correct.

(B) A site inspection to determine the number of tires, if any, remaining on the site and to verify that the requirements of this Agreement have been met.

COMMUNITY CLEANUP ADDITIONAL REQUIREMENTS

Grants awarded to communities for the purpose of conducting community clean up days must adhere to the following requirements as outlined in the Application:

(A) The Grantee must have the scrap tires disposed of as soon as possible, preferably the same day as the cleanup day or next business day, unless collecting tires to coordinate a regional pickup by the hauler. The maximum time tires can be at a collection point is one week.

(B) If the Grantee is coordinating with other Grantees in the region, each Grantee can store for up to one week all the collected scrap tires at a collection point to coordinate a regional pickup by the hauler.

(C) The Grantee must notify the Scrap Tire Program Coordinator (via EGLE-ScrapTire@Michigan.gov) of each upcoming collection/cleanup event scheduled under the grant. This can include newsletters, flyers, web, or any other utilized media.
