Meeting Agenda – FINAL Wednesday, March 26, 2025 5:30 PM

City Council Chambers

SPECIAL CITY COUNCIL

Ladel Lewis, President, Ward 2
Candice Mushatt, Vice President, Ward 7

Leon El-Alamin, Ward 1
Judy Priestley, Ward 4
Tonya Burns, Ward 6

VACANT, Ward 3
Jerri Winfrey-Carter, Ward 5
Dennis Pfeiffer, Ward 8

Jonathan Jarrett, Ward 9

Davina Donahue, City Clerk

This Special City Council Meeting was called by Council Vice President Candice Mushatt and Finance Chairperson Judy Priestley for the purpose of the Mayor and City Council holding a Public Hearing on the City of Flint's Fiscal Year 2025-2026 Proposed Budget.

CALL TO ORDER

ROLL CALL

PLEDGE OF ALLEGIANCE

PRAYER OR BLESSING

READING OF DISORDERLY PERSONS CITY CODE SUBSECTION

Any person that persists in disrupting this meeting will be in violation of Flint City Code Section 31-10, Disorderly Conduct, Assault and Battery, and Disorderly Persons, and will be subject to arrest for a misdemeanor. Any person who prevents the peaceful and orderly conduct of any meeting will be given one warning. If they persist in disrupting the meeting, that individual will be subject to arrest. Violators will be removed from the meetings.

PUBLIC HEARINGS

250106.6 Public Hearing/City of Flint Fiscal Year 2025-2026 Proposed Budget

A Public Hearing on the City of Flint's FY2026 Proposed Budget, as presented by the Mayor and City Council in accordance with Flint City Charter §7-101(A)(5).

PUBLIC COMMENT

Members of the public who wish to address the City Council or its committees must register before the meeting begins. A box will be placed at the entrance to the Council Chambers for collection of registrations. No additional speakers or slips will be accepted after the meeting begins.

Members of the public shall have no more than three (3) minutes per speaker during public comment, with only one speaking opportunity per speaker.

COUNCIL RESPONSE

Councilmembers may respond once to all public speakers only after all public speakers have spoken. An individual Councilmember's response shall be limited to two (2) minutes.

CITY OF FLINT

STRATEGIC BUDGETING PLAN

In developing this 2023 Strategic Budgeting Plan as required by Section 7-101(A)(3) of the Flint City Charter, my focus is to establish the goals, objectives, and measures of success that will rebuild a safer community, healthier neighborhoods, and opportunities for youth over the upcoming decades.

This strategic budgeting plan prioritizes the services, programs, and skilled staff needed to fulfil the vision of providing high quality City services that will help keep Flint strong. In accordance with Section 7-101, this strategic budgeting plan will guide the development of the FY2024 budget.

This year, generous federal funding has provided important opportunities to support and grow our work in key areas. We are actively seeking federal dollars to invest in our community and support the services needed. However, it is critical that we take advantage of every opportunity to secure State funding and that the State provides local governments with more flexible and progressive ways to raise revenue.

GOAL: REBUILD THE CITY OF FLINT'S RESIDENTS, BUSINESSES, AND NEIGHBORHOODS

Objective 1: Attack crime and blight

Measures of success:

- Reduce crime rates in the City of Flint.
- Conduct cleanups of blighted properties.
- Secure grant funding to demolish privately-owned blighted structures.

Objective 2: Reverse population decline

Measures of success:

- Create housing and talent programs encouraging young adults to live in Flint. Establish partnerships with federal/state partners highlighting Flint as an attractive destination for legal immigration & refugees.

Objective 3: Revitalize the City's business environment *Measures of success:*

- Identify commercial corridors to target for revitalization.
- Exercise the City of Flint's powers under the Corridor Improvement Authority Act to create Corridor Improvement Authorities to enable sustainable funding of these commercial corridors.

GOAL: REBUILD THE CITY OF FLINT FOR FUTURE GENERATIONS

Objective 4: Facilitate entrepreneurial activity by City of Flint residents *Measures of success:*

- Secure funding from public and private partners to highlight new investment opportunities in the City.
- Connect small businesses with grants to support startup and development activities in the City.

Objective 5: Encourage land ownership by current homeowners & residents *Measures of success:*

- Increase the percentage of owner-occupied parcels in the City.

Objective 6: Modernize the City's transportation & energy infrastructure *Measures of success:*

- Form partnerships with other governmental or private entities to invest in the City's transportation and energy infrastructure.

GOAL: REBUILD THE CITY OF FLINT'S GOVERNMENT

Objective 7: Update the City's water and transportation infrastructure *Measures of success:*

- Secure grant funding to update the City's water and transportation infrastructure to better match the City's current needs
- Increase available alternatives to meet the transportation needs of the City's residents (i.e. more bus shelters, road diets, speed humps, bike lanes)

Objective 8: Address the City's pension and legacy costs Measures of success:

- Increase the percentage that the City's pension fund is funded.

Objective 9: New City Hall/Metroplex Measures of success:

- Conduct feasibility study on constructing a new City Hall/metroplex
- Identify potential ROI and long-term savings of replacing City Hall
- Explore possible funding sources

Transmittal Letter

Sheldon A. Neeley
Mayor

CITY OF FLINT, MICHIGAN
Department of Finance

Clyde Edwards
City Administrator

Phillip Moore
Chief Financial Officer

Amanda Trujillo
Treasurer

To Members of City Council and Flint residents,

This is my sixth budget presented to the city council and the citizens of the great city of Flint, MI. The first budget during the global pandemic represented a very challenging set of circumstances where our pension expenses and other costs were rapidly rising, and the federal response was unclear at that time. This budget reflects a post pandemic world of important challenges but also great opportunities.

The national economy has weathered some major storms and remains resilient. Unemployment is very low, and job growth continues to keep pace. The city of Flint has benefited from these national trends, and we have boosted our own fortunes through key strategic investments. The future of Flint is looking brighter.

In December of 2020, the city of Flint experienced an unemployment rate of 13.9 percent due to the pandemic-induced recession. We mobilized city resources and the community to fight this terrible disease and restore stability in our local economy. The numbers prove our success, and the economic trends continue to improve. Unemployment is down to 6.1 percent. This translates into thousands of new jobs in our community since 2020. We are supporting entrepreneurs, existing business and investment relocations. Building our economy remains an important priority for this administration and this budget reflects important investments to build on this strength.

Total general fund revenues has grown to \$64 million. We have been able to grow revenues in this budget due to local economic growth. Tax rates remain steady in this budget with no increases in property taxes or income tax rates. Income taxes remain an area of strength for the city of Flint as the national and local economy continue in a growth mode. Property taxes, despite Michigan's strict limits, have also experienced some growth as the local real estate market continues to recover. The state government has done a better job of keeping its end of the bargain for funding municipalities, although more can still be done on this front.

This is a balanced budget that invests in key priorities for our city. Public safety remains a key priority. The city's general fund budget is reflective of \$68 million in critical public investments and personnel which includes some ARPA expenditures. Most of the budget is personnel costs. Public safety and other personnel keep the city safe and implement important government programs. The number of budgeted sworn officer positions remains at 116. The number of firefighter positions will grow from 84 to 87 in this new budget. Another key priority is blight mitigation and elimination. Overall the number of new positions remains unchanged from FY2025.

Looking beyond the General Fund, the major and local streets fund is balanced, while at the same time increasing our commitment to maintaining and investing in our transportation infrastructure. More dollars will be spent improving local streets. The neighborhood policing fund and public safety fund play an important role in our investments in public safety services. The water and sewer funds are balanced as we continue to ensure a safe drinking water system for residents and the removal of sewer water from homes and businesses. No rate increases are being proposed for water or sewer.

For several years, we have highlighted the specific challenges associated with the Flint pension system. The rising cost of this promise to our retirees has continued to strain our overall city budget. In 2023, the state of Michigan implemented the Michigan local pension grant program. This program was targeted to communities with the biggest pension costs in the state, including the city of Flint. This program provided Flint with \$172 million. This money was deposited directly into the pension system. This infusion of funds will stabilize our pension expenses for the next several years. This means that resources can be applied to real activities such as investments in employees, critical municipal supplies, and maintaining service levels, as opposed to pension expenses.

However, a warning must also accompany this important grant program. It does not completely relieve the city of this very large burden and in the future these costs could again become a problem for the city budget. This problem must remain front and center as we continue to work towards the city's long-term financial viability.

This city budget I present to you is based on our core principles of prayer, planning and partnership. It is a financially sustainable budget that invests in our key priorities and will keep tax burdens at the same level as previously. Public safety, blight, and other core city services will be further strengthened to ensure the protection of all city residents. We will continue to build on recent success to restore and revitalize the Flint economy.

Sincerely,

The Honorable Mayor Sheldon Neeley

Pension Costs

The City of Flint is responsible for making employer contributions to ensure adequate funding for the City’s pension and retiree healthcare commitments. The City’s annual pension contribution to MERS has increased dramatically in the last ten years, including over \$38 million projected for FY2024. These forecasted increases were caused by the steadily decreasing asset base of the pension system, as the employer contributions and investment earnings do not cover the pension payments to retirees of over \$50 million a year. These costs and cost increases are primarily borne by the General Fund and, to a lesser extent, by the Water and Sewer funds. The costs of pension and other post-employment benefits are one of the most critical budget challenges for the City.

If nothing were done to address the increasing annual pension contribution, the City would face debilitating financial hardship. However, through working with the State Legislature and partners, the Protecting MI Pension Grant Program was created to help Michigan’s underfunded municipal pension systems. Under the Fiscal Year 2022-23 state budget, the Michigan Treasury appropriated \$750 million to establish and operate a local grant program for qualified pension systems with a funded ratio below 60%, as defined in the Protecting Local Government Retirement and Benefits Act (P.A. 202 of 2017).

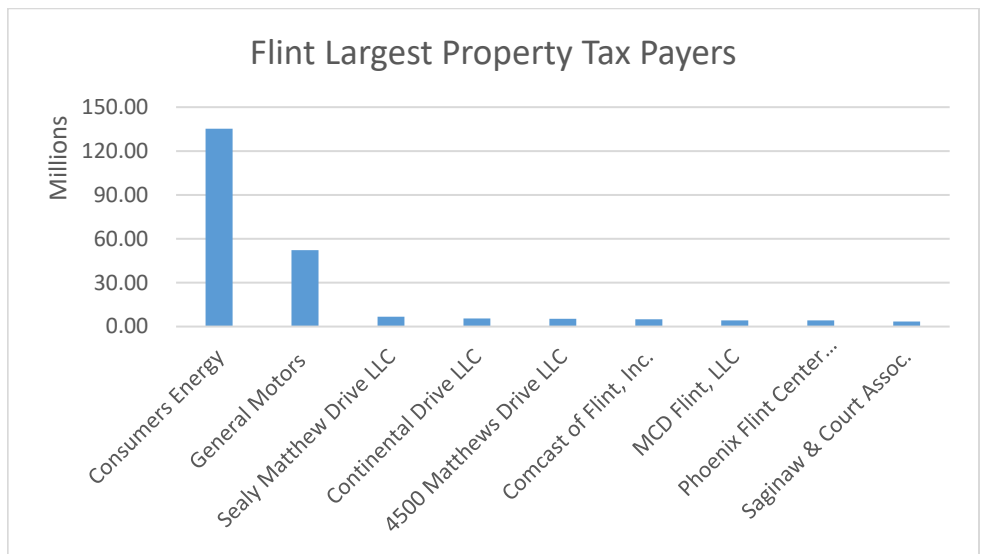

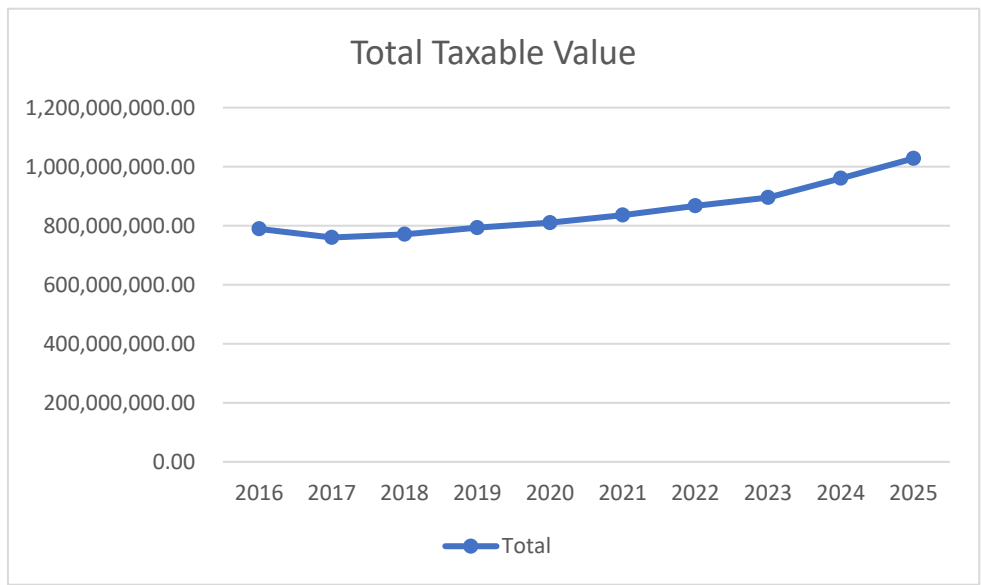

Taxes and Fees

The City of Flint collects various revenues to support the services it provides. Some of the City's revenues are based on specific rates and fees, including property taxes, income taxes, and water and sewer rates.

Property taxes make up significant revenue for the City in the General Fund and multiple Special Revenue funds. The chart below reveals that the City faced a substantial decline in overall taxable value due to the Great Recession from 2008 and 2009. Since 2014, the city tax base has stabilized. Property tax billing takes place twice during the year: July and December. The City has seen a 3-4% growth rate in the taxable property value over the last few years. For future projections, the City Assessor estimates an increase of 2-3% of taxable property value each year. The second chart shows the largest property taxpayers in the City of Flint as of FY2022.

The City's second-largest revenue source in the General Fund is income taxes. However, non-payment of City income taxes is a financial burden. Therefore, the City is developing an enhanced tax collection enforcement process to identify and correct tax evasion.

Taxes and Fees, Continued

The City collects a local income tax level of 1% from residents and 0.5% from non-residents who work in the City. The income taxes are included in the General Fund revenue.

The City collects a special assessment, per parcel, to cover the costs of streetlights. This revenue is in the Street Lights Fund.

The City collects a special assessment, per residential parcel, to cover the costs of waste collection. This revenue is in the Waste Collection Fund.

The City collects user charges for sewer and water services. This revenue is in the Sewer and Water Funds. The City is evaluating the rate structure with the intent of reducing economic hardship for residents.

See the Master Fee Schedule in the budget resolutions for a full list. Residents will not see an increase in their street lighting or waste collection fees in FY 2026.

Rate	FY2026	FY2027
<u>Property Taxes</u>		
General Operating	7.50	7.50
Public Safety	6.00	6.00
Neighborhood Policing	2.00	2.00

<u>Utility Rates</u>		
Water Service Charge For Residential ¾" meter	\$28.69	\$28.69
Water Metered (per CCF) For City 0-35 CCF	\$6.19	\$6.19
Sewer Service Charge For Residential ¾" meter	\$28.69	\$28.69
Sewer Metered (per CCF) For City Residential	\$4.312	\$4.312

Governmental Funds

In addition to the General Fund, governmental funds include special revenue funds, debt service funds, and capital improvement funds. Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects and require separate accounting because of legal or regulatory provisions or administrative requirements. Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal, interest, and related costs.

General Fund Revenue

The General Fund's primary sources of revenue are state revenue sharing, income taxes, charges for services, and property taxes. Other State sources of revenue include state-shared sales taxes and grants.

By ordinance, the City collects a local income tax level of 1% from residents and 0.5% from non-residents who work in the City, and this is The City's second-largest revenue source in the General Fund. However, non-payment of City income taxes is a financial burden. Therefore, the City is developing an enhanced tax collection enforcement process to identify and correct tax evasion.

Lastly, the City is recovering after facing higher unemployment rates and increased prevalence of remote work during the COVID-19 pandemic. As a result, many cities across the state saw lower income tax revenue. Moreover, according to the 2020 Census, the City saw a 21% population decline from 2010 to 2020, bringing the City's population down to 81,000. This decrease in population will force the City to grapple with lower state revenue sharing, income tax, and property tax collections.

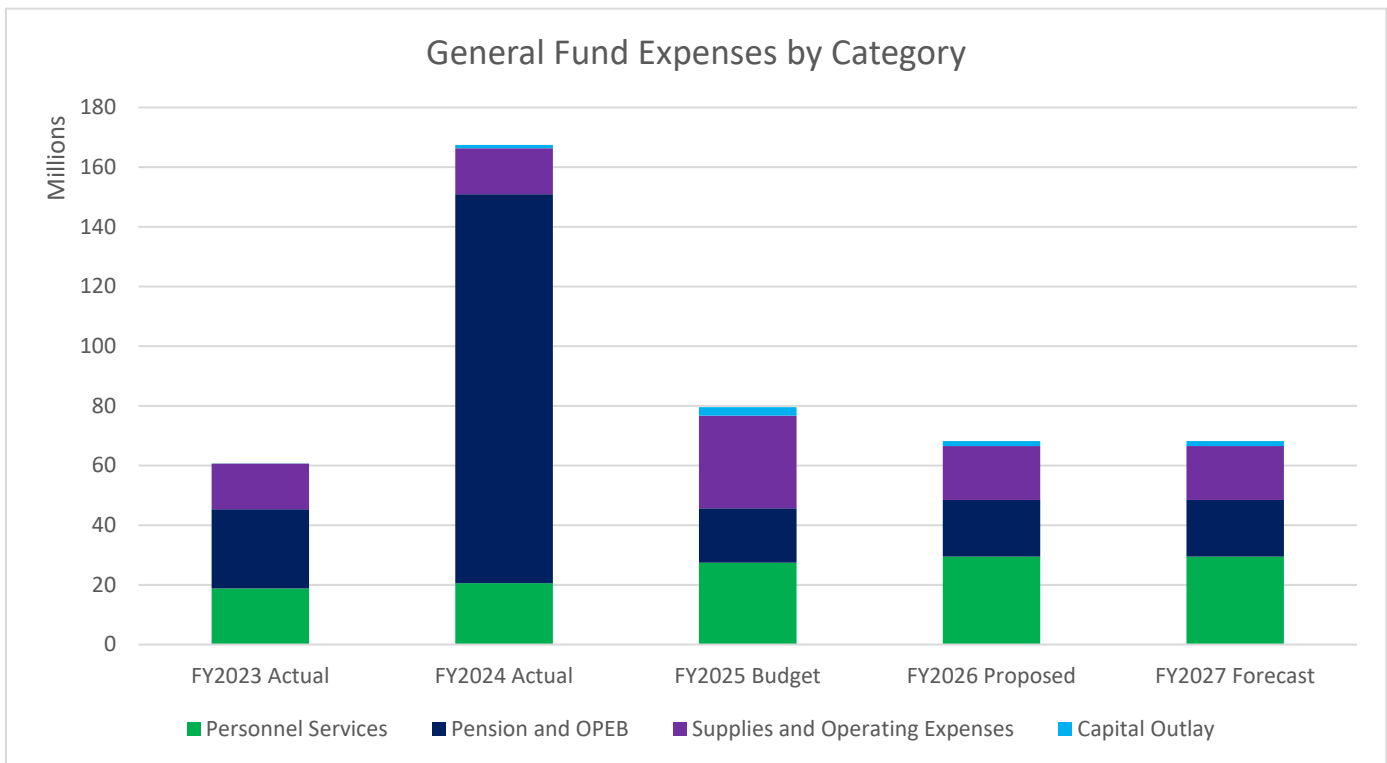

General Fund Expenditures

The main sources of expenditures for the General Fund are personnel services, including employee wages, health insurance, payroll taxes, and retirement benefits such as pension and OPEB.

Another source of expenditures is Supplies & Operating Expenses, which includes supplies, professional services, and other operating expenses.

Purchases of equipment are in the Capital Outlay expenditure category.

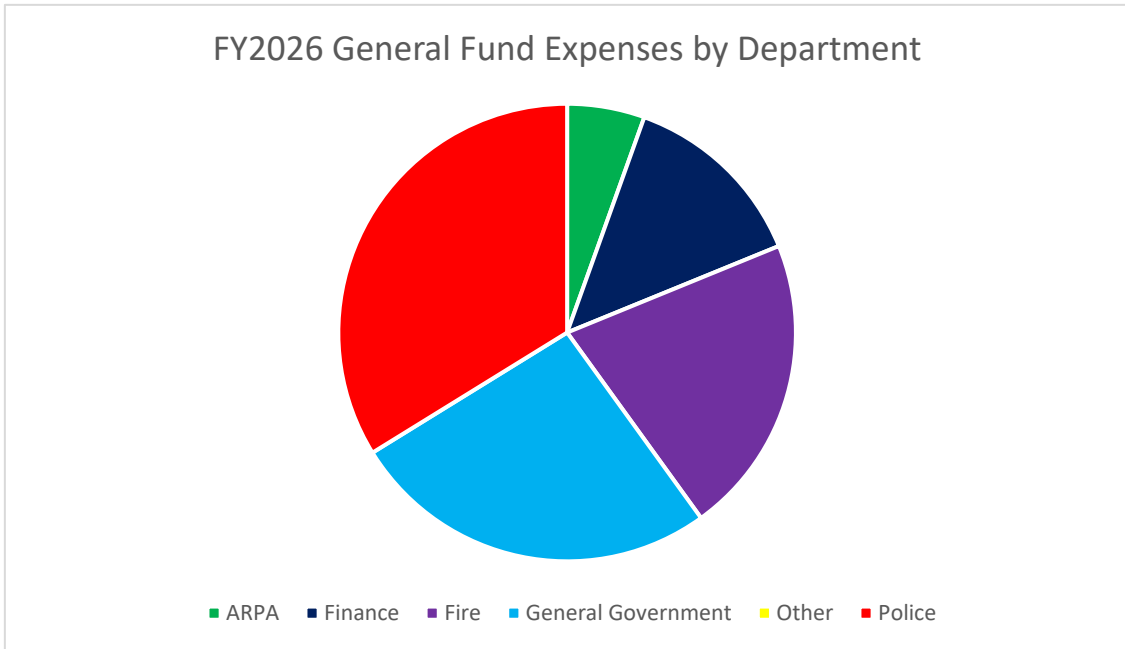

The Transfer Out expenditures are funds moved from the General Fund to other City funds.

The General Fund expenditures can also be reviewed by the different departments. These departments are discussed in more detail on the following pages.

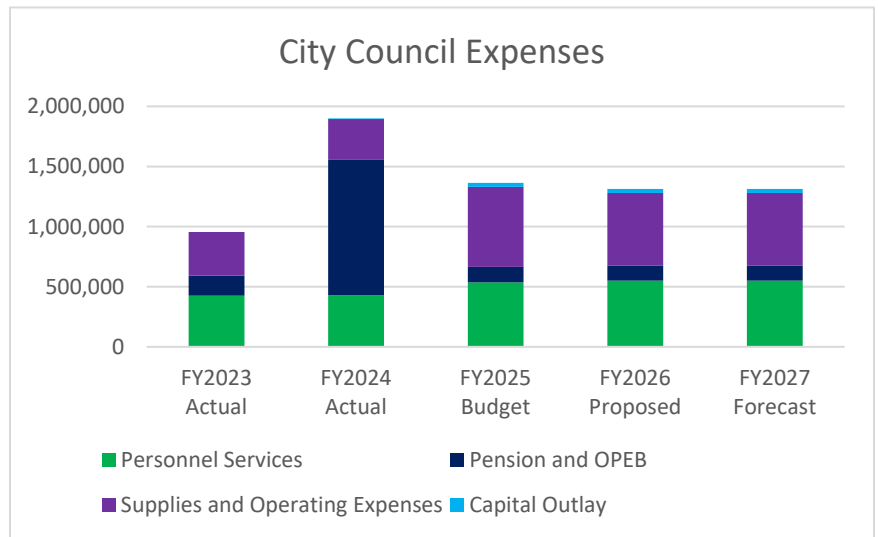

The General Government department is for items that apply to the General Fund as a whole, instead of a single department.

Public Safety departments, Police and Fire, account for approximately 62% of the FY2024 budgeted General Fund expenditures.

Legislative Department

The City Council is a board of officials elected by Flint residents and vested with the legislative power of the City of Flint. The City is split into nine (9) wards, and residents of each ward elects a councilmember to represent their interests in city government. The City Council is responsible for the adoption of ordinances and resolutions in accordance with the City Charter and State law and exercises general oversight over City affairs. At meetings of the City Council and its committees, the City Council reviews proposals from the Administration and offers citizens an opportunity to make suggestions for the improvement of the City and City operations. Pursuant to the Flint City Charter, the City Council adopts an annual City budget, designating appropriations and the amount to be raised by taxation for general purposes. The Council also works with other governmental, business, and community groups to resolve regional and neighborhood issues.

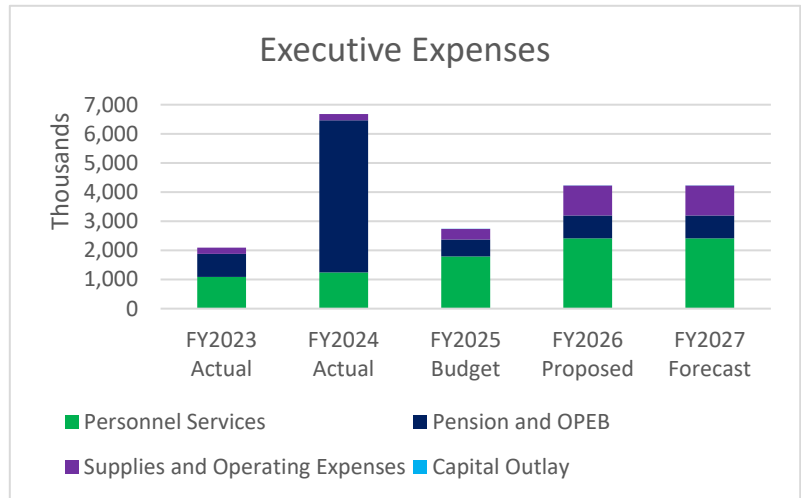

Council members were elected in Nov 2021 for five-year terms in accordance with the 2018 City Charter. The next election will be in the fall of 2026.

Executive Department

The Mayor’s Office works to implement the Mayor’s vision for Flint. The Mayor is elected by the citizens of Flint and is, in turn, directly responsible to them. The Mayor’s Office directly oversees the City Administrator, who oversees the rest of the departments in the City. However, the Mayor still plays an active role in determining the direction of all the departments. They also work closely with the City Council to discuss critical decisions and plans for the City.

The Office of Blight Elimination and Neighborhood Stabilization works to keep the City beautiful. The office provides cleanup crews, dumpsters, and supplies to residents planning to clean up their properties. Beginning in 2020, the City renewed its campaign to fight blight and has worked alongside community organizations such as the Neighborhood Engagement Hub and Keep Genesee County Beautiful. The office continues its campaign going into FY2024.

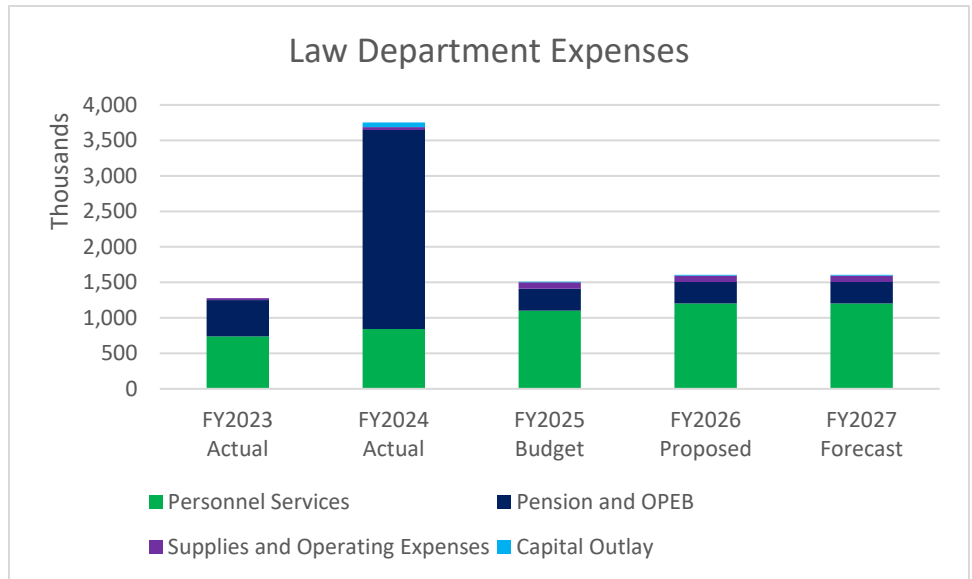

The City Administrator oversees the day-to-day operations of the City of Flint. He oversees every department and ensures everyone is working toward the goals set by the City Council and the Mayor. This work includes receiving input from citizens to understand their needs and concerns and then communicating these to the Mayor and City employees.

Law Department

The Law Department provides quality legal services to the City’s elected and appointed officials, employees, and agencies. We also provide comprehensive training and representation for the City and its officials and employees. In addition, the Law Department provides compliance support to the City’s line departments on multiple issues to ensure that the City and its officials and employees are satisfying a variety of legal requirements.

The Law Department also, either through staff attorneys or by retaining outside counsel, provides legal representation to the City, its elected and appointed officials, and its employees and volunteers, to defend against civil litigation in state and federal courts as well as in administrative proceedings. We also represent the City’s interest in Bankruptcy Court proceedings to recoup funds owed to the City and appear before the Michigan Tax Tribunal on tax assessment disputes. The Law Department prosecutes violations of City of Flint ordinances and prosecutes nuisance abatement actions to address blight.

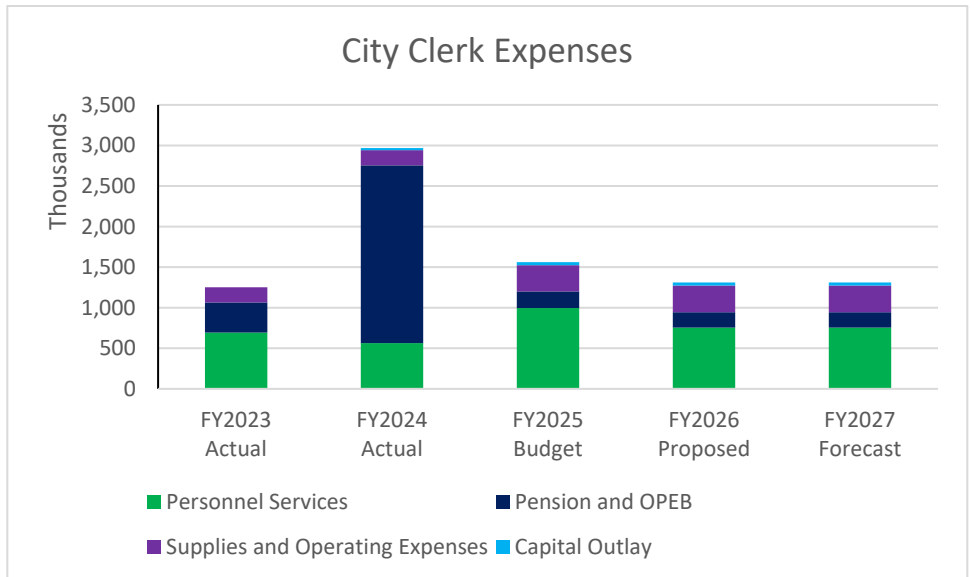

In the last year, the Law Department has focused on vigorously defending the City in ongoing litigation. Multiple cases have been dismissed outright, while other cases have ended with settlements that limit the City’s exposure to potentially ruinous adverse verdicts. The Law Department has also aggressively supported the City’s blight elimination efforts, securing numerous judicial orders allowing City departments to clean up and address some of the City’s worst-blighted properties. The Law Department has also worked to return its activities in-house as much as possible, including but not limited to bankruptcy, tax tribunal, and collections matters, allowing us to represent the City more directly and economically in these areas.

Moving forward, we intend to continue providing high-quality, economical, and effective legal counsel and representation for the City of Flint. In particular, the Law Department will continue to prioritize representing the City, its officials, and employees in various courts, and assisting other City departments in providing effective and efficient services to the City’s residents and improving our City.

Office of City Clerk

The City Clerk’s Office is responsible for maintaining records of City Council proceedings, providing licenses to local businesses, overseeing elections, and other administrative duties. By keeping track of these records, the office operates as a librarian for some aspects of city business. They also publish all city ordinances, and once every ten years they must publish a comprehensive book containing all current ordinances.

The Licensing division works with businesses to ensure that they are operating in a safe and ethical way. This helps protect residents of the City from fraudulent or unsafe business practices. They have a team of investigators who respond to complaints about businesses or services to ensure all laws and regulations are followed.

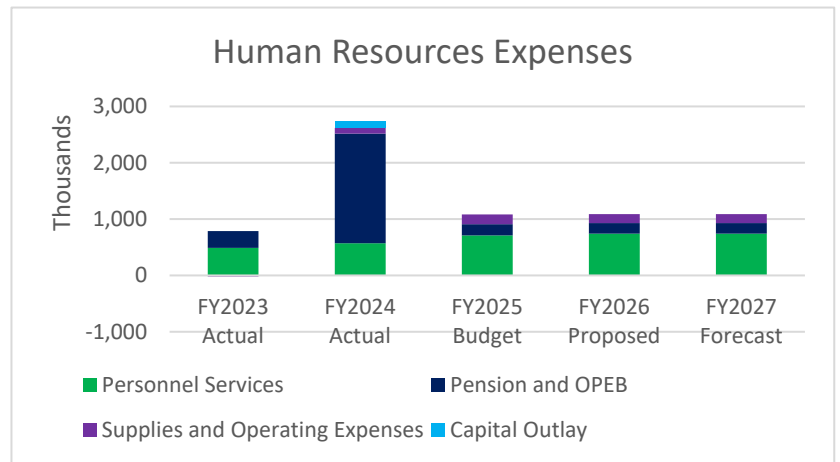

The Election division maintains voter registration records, helps new voters register for the first time and educate them on the process, and issues absentee ballots. They also administer all elections in accordance with Federal, State and local laws.

Human Resources Department

The Human Resource & Labor Relations Department is a support services department dedicated to helping the city achieve its human resource goals using a proactive, innovative, and consultative approach. The Human Resources Department is responsible for keeping all other City departments properly staffed, through retention and recruitment, and sets all employee policies. They are also the primary negotiators on behalf of the City for all collective bargaining negotiations and they worked with unions (1600, 1799, FPOA, POLC- Police Sergeant's, Lts./Captains, Local 352) to determine the new contracts. They handle all employer-employees disputes and disciplinary issues for the City.

Currently, the human resource/labor relations team consists of eight (8) employees. The staff of this department is responsible for various functions that affect every department of the City in the following:

- Organizational Structure.
- Recruiting and Onboarding New Employees.
- Performance Management.
- Employee Compensation and Benefits.
- Training and Development.
- Employee and Labor Relations.
- Workplace Safety and Health Issues.
- Employee Satisfaction.

These functions include: contract bargaining process for six unions; policy and procedure development and implementation; employee relations to include investigations such as sexual harassment and discrimination; settling grievances with union leaders on behalf of their employees; recruitment, selection, development, and retention; onboarding of new employees; personnel changes for payroll; benefit management; manage COVID-19 policies and procedures based on recommendations from the Genesee County Health Department and CDC; manage the CDL program to include medical recertification and the City's random drug testing policy required under DOL; verifications of employment or prior employment from various companies and organizations; manage the City's worker's compensation plan; responding to FOIAs, PERA request, and legal request; training of staff; manage the City's Employee Assistant Program (EAP); maintain seniority list and pull the seniority list as requested from departments or unions; responsible for layoffs and recalls; safety; compliance with City ordinance and charters as it relates to human resource functions; employee records management; maintaining the City's classification and compensation plan; maintain compliance with state and federal regulations (EEOC, ADA, FMLA, FLSA, etc.)

Finance Department

Finance's mission is to develop and control the financial management functions of the City, including accounting and budget functions. The department maintains multiple financial management systems, which are used to monitor and meet financial reporting requirements to ensure fiscal stability and proper utilization of public monies.

Investment and management of City funds are also significant policies and operational activities through which Finance maximizes City resources by maintaining the City's portfolios in the most advantageous positions. This includes ongoing analysis of individual investments and general trends that impact the returns on investments, including analysis of City disbursement and collection activities to ensure sound and prudent fiscal management. Financial management responsibilities include risk management and the assets of the General Fund and enterprise or special revenue funds.

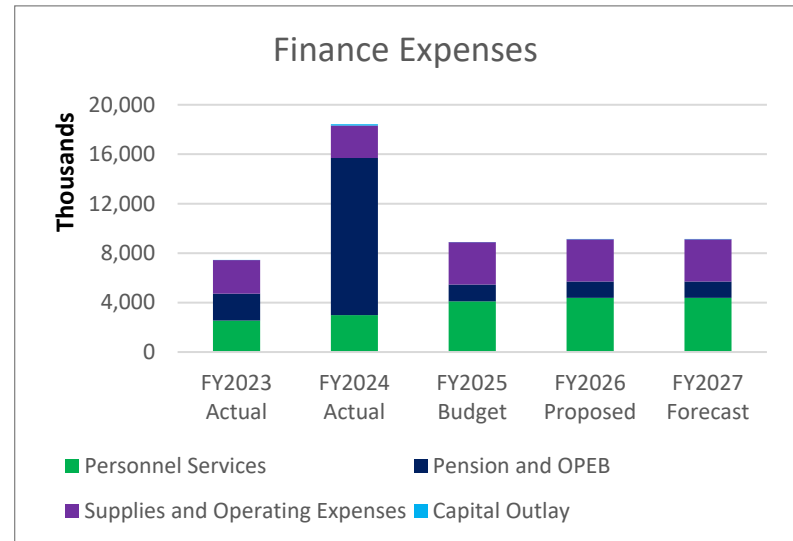

Budget responsibilities include the preparation of policy recommendations and coordination of budget development and budget monitoring to ensure conformance with the state Uniform Budget and Accounting Act and the City Charter. This process includes revenue and expenditure analysis, policy and budgetary alternatives development, and coordination between the Mayor and departments on budget development and financial and operational issues. Finance also assists in union contract negotiations and provides cost-benefit analyses on adopted projects for Mayoral review. In addition, Finance includes the Purchasing, Customer Service Center, Assessment, Information Technology, Facilities divisions, and general finance functions such as payroll, accounting, and accounts payable.

The Purchasing division is responsible for acquiring goods and services for the City. The division issues purchase orders, helps to develop term contracts, and acquires supplies and services. They maintain a competitive bidding process that businesses are encouraged to participate in. They dispose of all surplus property and equipment. They are responsible and accountable for the expenditure of public funds.

The Customer Service Center is responsible for billing and collecting revenues, including real property taxes, personal property taxes, City income taxes, water and sewer bills, license and permit fees, and other bills.

The Assessment Division is responsible for the appraisal of and determination of actual cash value and taxable value for all real and business personal property. The office oversees the preparation of the Assessment and Tax rolls used in the billing/collecting of taxes. Additionally, they handle ownership changes, address changes, property splits/combinations, exemptions (Principal Residence, Hardship, Disabled Veterans, Small Business, Non-Profit), and all the documentation required.

The Facilities division is responsible for the maintenance of all City-owned buildings. This includes snow removal and lawn care maintenance for those properties.

Judicial Department

The 67th District Court of Genesee County has limited jurisdiction over Flint and the rest of the county. The Court has ten elected judges and four appointed magistrates, among other positions. The Court is responsible for parking citations, traffic violations, criminal misdemeanors, preliminary examinations in felony cases, landlord-tenant, small claims, and general civil cases. The City helps contribute to some of their operating costs.

The current agreement with Genesee County for the operation of the District Court under the merger ends on December 31, 2025. The City is currently exploring its options.

Police Department

The Police Department works to enforce local, state, and federal laws to keep all residents, businesses, and visitors safe and secure. The department is split into different bureaus that each serves the city in their own way.

The Patrol Operations Bureau is the most visible part of the police department. It is made up of uniformed officers who respond to 911 calls and patrol the city to detect and prevent crime. This division is made up of the traffic bureau, four different patrol squads, and other support services.

The Criminal Investigations Bureau is a team of detectives that investigate crimes throughout the city. They work together with detectives from the Michigan State Police to fully investigate crimes and collect all the facts. This evidence is then presented to a prosecutor's office to determine if any criminal charges will be filed.

During the year 2023, the City of Flint ratified Collective Bargaining Agreements with all police unions and civilian support staff unions. These new contracts provided all members with significant wage increases. Until recently, many positions in the department had been vacant. This increase has already been attracting new, qualified officers to join the department, as well as hiring bonus incentive pay. As many more officers will be retiring in the near future, this new contract will ensure that the police department is able to fill these positions and keep the city safe.

Beyond this wage increase, the Police Department is continuing to invest in their officers. They continue to provide training to help them better protect the people of Flint, and the City ensures that officers have the protection they need to be safe while patrolling the streets. To reduce violent crime and improve public safety the Police Department has undertaken several new initiatives. They began a bold new recruitment campaign to fill vacant positions with qualified officers and have already had success with this. They established a Cold Case Unit to solve homicides, proactive investigations and target the drivers of crime in the City. They are also specifically responding to complaints about illegal narcotics, prostitution, and human trafficking. A Gun Bounty Program was established to take assault rifles off the streets.

The Police Department has assigned an officer to the Flint Area Narcotics Group. This is a special unit created by the Michigan State Police to fight illegal drug distribution within the City of Flint. The Michigan State Police have sent fifteen additional narcotics investigators, along with other resources, to the Flint area to assist with this effort.

Most recently the department has assigned an officer to investigate opioid deaths and to partner with the treatment organizations to reduce opioid deaths.

The department is also investing in new, innovative technology to help them fight crime. Analysts in the intelligence center are helping officers better understand crime trends and predict where issues may arise in the future. By coordinating with patrol operations, the detective bureau, and the special investigation and special operations units, the department can reduce crime by conducting enforcement in specific locations.

Police Department, continued

Most recently the police department has requested ten percent of civilian staff will be upgraded from part-time to full-time employment. This upgrade will significantly improve the department's customer service.

Fire Department

The Flint Fire Department (FFD) is Genesee County's only full-time fire department providing fire and emergency medical services to the citizens of the City of Flint. FFD recognizes that emergencies may occur at any time and is committed to providing quality service before, during, and after the emergency. To improve community relations and contribute to the stability of our City, FFD has expanded its mission to include community outreach and career development.

The FFD is on the front-line in creating an informed first responder community by providing fire prevention and education programs to ensure that the community is well equipped to respond in the event of an emergency in and outside of the home. These programs provide smoke alarms, carbon monoxide detectors, second story escape ladders and fire prevention and education programs in the community for adults, children, and seniors. Flint Fire reaches over 600 students (K-3rd grade) each year with our Fire Safety House initiative and over 200 students (4th - 6th grade) each year during Fire Prevention Week.

By introducing inner city youth to a career in the fire service and providing training in its application, FFD is assisting in the improvement of the city's economic condition. Career development will enable FFD to provide highly trained community members that are self-sustaining, responsible, and employable. FFD employs highly trained State of Michigan certified trainers to conduct Fire and EMS courses. All Fire personnel are State of Michigan Certified as Emergency Medical Technicians or Paramedics. The department also participates in career fairs in schools and colleges as well as conduct summer fire camp for students (12 – 17 years old).

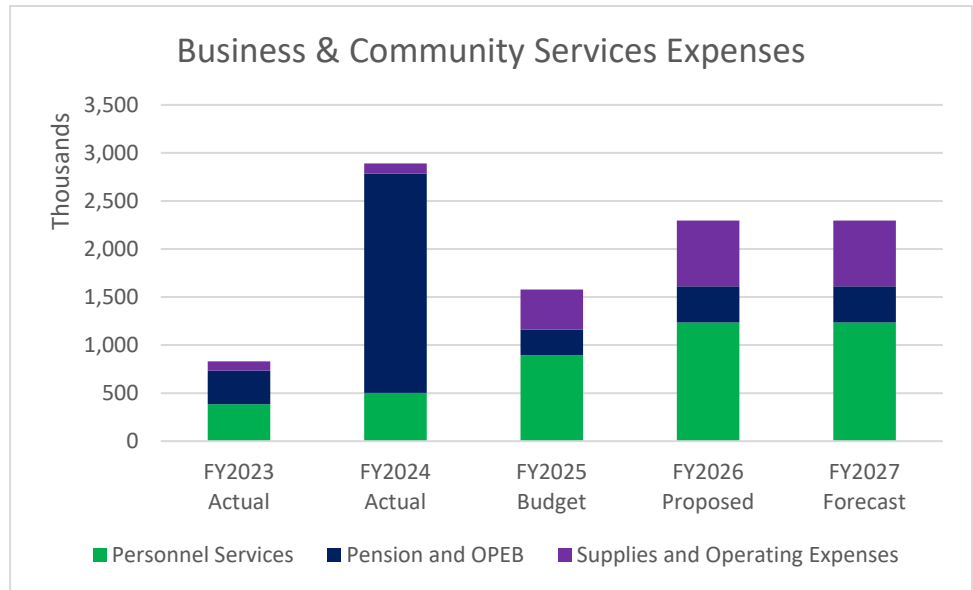

Through our First Aid and Cardiopulmonary Resuscitation (CPR) programs, FFD is assisting in the development of skills to handle crises. Courses in CPR, First Aid, Automated External Defibrillator (AED) and Fire Safety are conducted in local churches, schools, senior centers, and neighborhood associations throughout the community. FFD believes in making community members feel safe with what they can control.

Business and Community Services

The Department of Business and Community Services, previously known as the Planning and Development Department, through partnerships with businesses, local non-profits, other units of local government, and citizens, continues Flint's transformation into a safe, healthy, and sustainable city. They achieve these goals through multiple divisions (Community Services, Business Services, Operations, and Building Safety Inspections) that work independently and collaboratively, sharing the Department's vision as a resource for redevelopment of commercial, residential, and community development projects, and providing services that reflect the needs of its citizens.

The Business Services Division is comprised of the divisions of Zoning, Economic Development, and Licensing; all crucial components to building Flint's fiscal ecosystem. The Business Services team leads all phases of new development as well as updates to existing structures from concept phase through post-construction review. Their goal is to provide a streamlined development process integrating internal teams, external partners, and applicants, allowing new projects to flourish. This team supports five boards/commissions including the Planning Commission, Zoning Board of Appeals, Historic District Commission, Economic Development Corporation, and the Brownfield Redevelopment Authority. Through internal programs and partnerships with their respective boards, this team serves as the principal for updating zoning ordinances, updating and complying with the Comprehensive and Capital Improvement Plans, as well as preserving historical structures within the City. The goal of this team is to direct neighborhood stabilization, residential and commercial growth, and guide the revitalization of modernizing Flint's economic footprint.

The Community Services Division encompassing Community Development, Neighborhood Implementation, Parks, and Housing continues to be an essential part of the City of Flint's mission. This division oversees Federal grants and neighborhood initiatives that support community development and housing needs while working to enhance quality of life across the city.

The Community Services staff manages federal grant programs including CDBG, ESG, HOME, HOME-ARP, and Choice, overseeing distribution, monitoring compliance and maintaining required documentation. The Community Development Block Grant program addresses public services, blight elimination, housing improvements, and economic development through strategic allocation and oversight of subrecipient agreements. The Emergency Solutions Grant program focuses on preventing homelessness and supporting those experiencing housing instability through rapid re-housing and emergency shelter operations.

Staff coordinate with contractors and community partners to implement housing rehabilitation, neighborhood improvement projects, and parks programming through Flint. This team processes residents' concerns, handles contract approvals, and manages budgets for various initiatives while supporting citywide planning efforts. Working across departments, they ensure successful project implementation while maintaining compliance with federal, state, and local

requirements. Looking ahead, the division is preparing to launch several new initiatives: HOME-ARP scattered site project, ARPA Roof Repair Program, and Down Payment Assistance Program launching in 2026.

The Building and Safety Inspections team is responsible for protecting the health and welfare of the community through building plan review, inspections, permitting, and enforcement of safe and compliant structures. This division works directly with the Business and Community Services team, ensuring all proper codes and ordinances are complied with. The division consists of state-licensed inspectors who ensure all buildings in Flint are safe for residents, employees, and visitors.

Office of the Ombudsperson

The 2018 City Charter created the Ethics and Accountability Board to investigate complaints against public servants and city agencies for failure to adequately perform services as required by the City of Flint Charter. The board is also responsible for appointing an Ombudsperson. While the City used to have an Ombudsperson, the position was cut in 2011. The new charter guarantees \$250,000 in funding for the department.

Flint residents can file complaints with the Ombudsperson concerning issues with the City government. The Ombudsperson is then responsible for investigating these complaints. These complaints can range from problems with City services to ethical complaints about City employees. In addition to responding to complaints, it is the role and duty of the Ethics and Accountability Board and the Ombudsperson to conduct performance audits to ensure that the city government is operating efficiently and effectively, seek to have provisions of the City of Flint Charter enforced, and provide recommendations when a pattern and practice of misconduct is identified.

Major Street & Local Street Funds

The Major and Local Street Funds account for the maintenance and improvement activities for streets within the City. Funding is primarily through state-shared gas and weight taxes. Vehicle registration fees provide an additional source of revenue for the State of Michigan. The revenue generated is then distributed among counties and cities in Michigan.

The Street funds are part of the Transportation Division of the City's Department of Public Works (DPW). The Transportation Division is responsible for managing much of the public infrastructure of the City. Oversight includes planning, design, maintenance, and construction of major and local street systems and bridges. Transportation encompasses three operational divisions: Transportation Administration, Traffic Engineering, and Street Maintenance.

The Administrative staff issues Metro Act Permits that grant telecommunications providers access to and ongoing use of the public right-of-way. Administrative staff also manage the local Transportation Improvement Program (TIP) which involves planning, financing, and constructing major street road projects which are typically funded with federal pass-through dollars, State contributions, and local revenues which pay for the local share of project costs.

The Traffic Engineering Division promotes pedestrian and traffic safety and utilizes the best practices and innovative approaches to perform traffic control maintenance activities. The division installs, maintains, repairs, and utilizes traffic control devices to facilitate the efficient movement of vehicles and people and to improve traffic flow. Traffic Engineering's primary functions involve the design, construction, maintenance, and historical archiving of all traffic signals, signs, and pavement markings within the City.

The Street Maintenance Division is responsible for performing maintenance and preservation activities within the public right-of-way. Street Maintenance currently maintains 152.32 miles of major streets and 353.89 miles of local streets. Maintenance of City owned streets includes paving, pothole patching, repairing pavement breaks, preventative maintenance, plowing, and sweeping. The City is responsible for winter maintenance for local streets.

Neighborhood Policing Fund

The Neighborhood Policing Fund accounts for a special property tax levy approved by voters to provide additional police protection for neighborhoods. Neighborhood Policing is a specific subsection of the Patrol Bureau designed to be especially accessible and responsible to the people of Flint. These officers are there to build relationships with community members and develop a nuanced understanding of needs. This practice has become more popular across the country in recent years as cities have realized the benefits it offers both police departments and the residents, they serve by building mutual trust and understanding, and the City of Flint takes pride in being one of the earliest adopters of neighborhood policing.

Parks and Recreation Fund

The Parks and Recreation Fund accounts for the annual tax levy used to enhance City parks and recreation services. Parks serve as valuable spaces for residents and community members to gather, relax, exercise, and play. They play a crucial role in attracting new residents, businesses, and investments. Research has indicated that parks and open spaces not only increase neighboring property values but also provide essential environmental services such as stormwater and carbon dioxide absorption, while mitigating urban heat islands.

The tax levy stands as the sole dedicated funding source for parks administration and operations. Most of the millage funds are allocated to support the City's 70 parks and recreational facilities, with a focus on projects aligned with the goals and objectives of the Parks and Recreation Master Plan. These goals, determined through community visioning sessions and meetings, aim for an extensive network of safe, accessible, and ecologically sustainable Parks and Open Spaces.

The Parks and Recreation Staff actively collaborate with community partners to implement projects and secure resources necessary for the City's Park system. In addition to the millage fund, staff members diligently seek alternative funding sources to supplement their budget. Partnerships with local block clubs, community groups, and major institutions like Genesee County Parks & Recreation Commission, Keep Genesee County Beautiful, Friends of Berston, and the Police Activities League are crucial in supporting ongoing maintenance and providing additional resources for projects.

Waste Collection Fund

The Waste Collection Fund accounts for a special property tax assessment allowed to provide waste management services, including weekly trash service, seasonal compost collection, and biweekly recycling pickup. To calculate the assessment, the City divides the waste-collection budgeted expenditures by the number of households (residential parcels). The Department of Public Works is responsible for monitoring the activities of the City’s contracted waste collection services. The special assessment for waste collection remains the same at \$202.56 in FY 2025.

Building Inspection Fund

The Building Inspection Fund accounts for the operating revenues and expenditures of the City's code inspection and building inspection department in accordance with the State Construction Code Act of 1999 (PA 245 of 1999). The department issues all necessary building permits and has a team of state-licensed inspectors to ensure the safety and well-being of residents.

Proprietary Funds

Enterprise funds account for activities for which a user fee is charged for the goods or services received based on that usage. The City has two enterprise funds: Sewer and Water. These funds are part of the Utilities division of the City's Department of Public Works (DPW).

City of Flint – Enterprise Funds

Sewer Fund

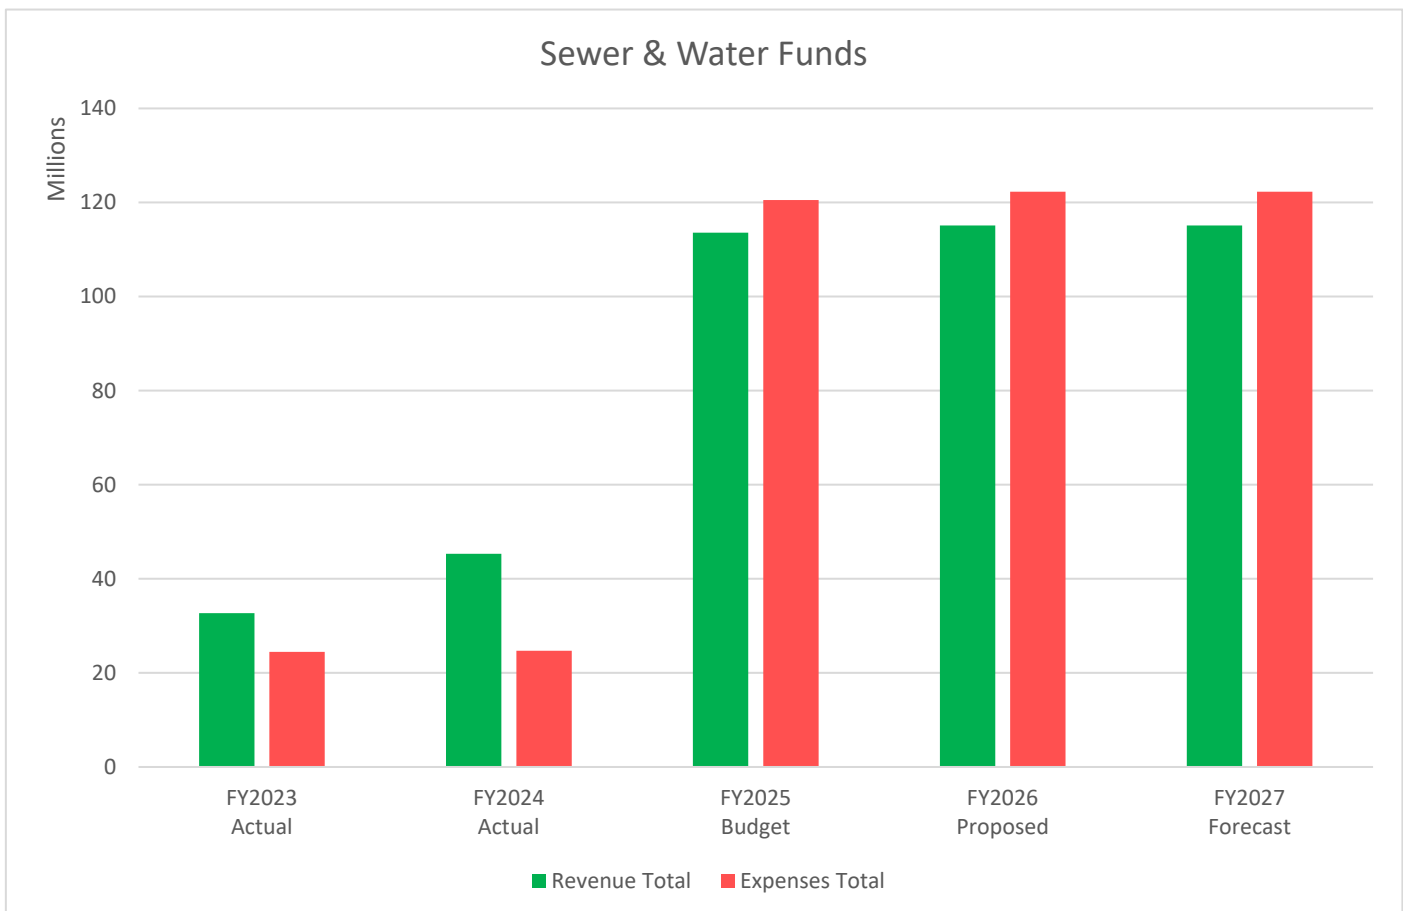

Water Fund

Enterprise Funds, Continued

The DPW is focused on balancing the maintenance needs of Flint's aging infrastructure and tightening budget constraints. In recent years, the utility funds have been making major infrastructure improvements to the system. With the assistance of federal and state grants together with locally issued bonds, the city has invested over \$100 million in the water and sewer systems.

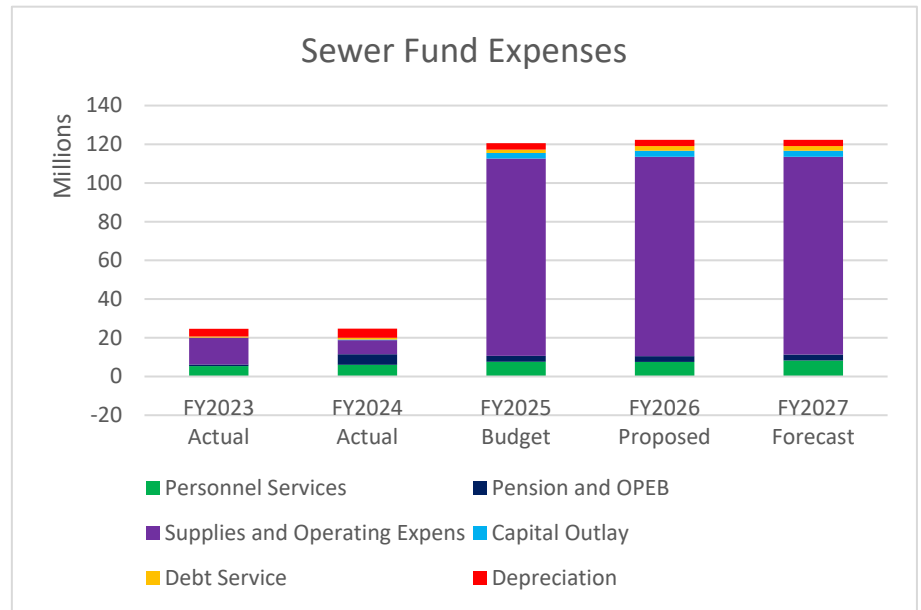

Operated from the Water Service Center (WSC), the Water Distribution and Sewer Maintenance divisions supply water to Flint homes and deliver sewage to the Water Pollution Control (WPC) facility. In addition, they are responsible for repairing the water, sanitary, and storm sewer lines throughout the City. The City has approximately 600 miles of sanitary sewers, 350 miles of storm sewers, and 600 miles of water mains.

The City water and sewer services are funded by the utility bills paid by city residents. Currently, the City has an 80% collection rate for water/sewer bills. This rate can be attributed in part to the financial stress that has been caused due to the COVID-19 pandemic. In March 2020, Mayor Neely ordered water-service connection for all City residents. In December 2020, Governor Whitmer signed legislation banning water shut-offs until March 31, 2021. The City's moratorium was extended by the Mayor for residential customers through December 2021. The City is ramping up collection by sending notices and turning off the water.

Sewer Fund

The Sewer Fund accounts for the activities of the City of Flint, sanitary and storm lines. The Water Service Center (WSC) division is responsible for the sewer collections system. The Sewer Department is responsible for rivers, creeks, culverts, etc. We clear creeks, trenches and repair our own storm system. We also maintain the sanitary lines revolving commercial, industrial, and domestic. We are closely monitored by the Michigan Department of Environment, Great Lakes, and Energy and the U.S. Environmental Protection Agency. All spills must be reported to the above agency, along with maintaining our sanitary and storm system. MS4 Municipal Stormwater (MS4) has a lot of demands.

The City of Flint has:

570 miles of sanitary lines/12,000 sanitary manholes

350 miles of storm lines/7,250 storm manholes

14,962 storm catch basins

345 outfalls

The WPC is currently, working on clearing creeks, culverts, and access to rivers which has lots of overgrowth, clearing out of wooded areas that has compromised access to sanitary manholes. Clearing out wooded areas that has compromised access to sanitary manholes. Clearing these areas mentioned will help with flooding. We are also working on cleaning catch basins, sanitary lines, storm and sanitary sewer mains. Hopefully getting all these issues addressed will help with sewer overflows and issues with flooding from creeks, culverts ETC>sewage disposal and treatment system. The Water Pollution Control (WPC) division is responsible for the City's municipal wastewater treatment facility. WPC treats all industrial, commercial, and domestic (residential) wastewater. All treated water discharged to the Flint River must be checked for quality and meet rigorous standards set and enforced by the Michigan Department of Environment, Great Lakes, and Energy and the U.S. Environmental Protection Agency.

The plant is designed to treat 50 million gallons per day (MGD), and its maximum daily flow capacity is 75 MGD. The facilities include:

- The treatment plant
- 2 Pumping stations
- 1 remote pumping station
- 8 remote lift stations

The WPC facility is currently undergoing several upgrades and rehabilitation projects. The influent structure, which distributes the water to the plant, and the Battery A and Battery B grit removal systems are being rehabilitated and upgraded. The aeration system (secondary biological treatment) is being improved by replacing the old 1750 horsepower blowers with turbo blowers. Several mechanical repairs and equipment upgrades are being made to improve energy

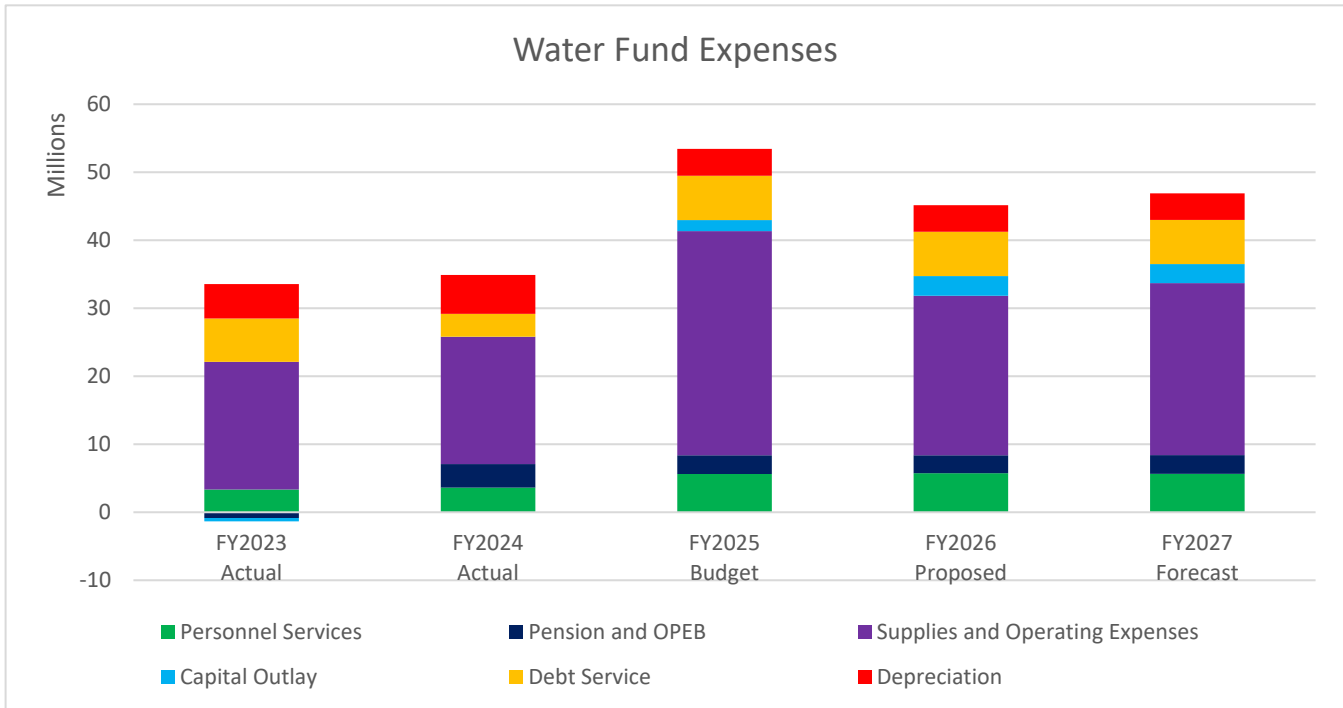

efficiency. The biosolids dewatering improvements include adding two centrifuges, providing both redundancy and better dewatering. The Northwest pumping station improvements and diversion will right-size the pumping station to provide a more energy-efficient operation while the diversion will direct high flows to the East Pumping Station. Disinfection of the treated water is being converted from chlorination to ultraviolet light disinfection, eliminating the multiple-ton cylinders of chlorine and sulfur dioxide, both very hazardous compressed gasses, from the facility. This improvement will provide a safer environment at the WPC and for the surrounding community. Additional improvements include refurbishing the primary settling tanks, including electric actuators on the influent gates, secondary settling tank upgrades, and improvements to the Third Avenue remote pumping station replacing one of the large pumps with a smaller pump to right size the station for low flows.

Water Fund

The Water Fund accounts for the City's water distribution and treatment system activities. The Water Treatment Plant (WTP) division operates the water supply and limited treatment system, including two drinking water reservoirs, one elevated tower, three pump stations, three dams on the Flint River, and the water quality testing laboratory. In addition, Flint currently purchases treated Lake Huron Water from Great Lakes Water Authority as its primary water source.
