## CITY OF FLINT

City of Flint Resident:

Along with your application for the City of Flint In-Home Plumbing Application, we will need the following documentation to verify your eligibility for the program. You must meet income and residency requirements and have a child who lives in or visits the home aged six or under. Please submit the following documentation with your application:

- A copy of the driver's licenses or state identification of all adults in the home.
- Income for all adults in the home, pay stubs, employer statements, social security, etc.
- Most recent bank statement for all adults.
- Copy of the deed to the home (If you are a homeowner, if you are a renter, submit the first page of your lease.)
- Copy of homeowner's insurance policy. (If you are a renter, ignore this requirement)

If you have no income or bank account, we have forms you can fill out in lieu of those documents. If you have no homeowner's insurance, you must provide a quote. If you need help with anything, please contact:
