SUBJECT: **Addendum #01** – Proposal #22000703 – Cleanout of East Sludge Tank

This addendum has been issued because of the following:

Delete Item 2: TCLP (Toxicity Characteristic Leaching Procedure) test results indicate that this material may be landfilled in a Class II sanitary landfill. The Contractor shall assume the responsibility of disposal of the removed material, after it is dewatered.

Reason: The City will provide a place on site where the removed material will be off loaded (see Item 3). TCLP testing not needed because the material is not going to a landfill.

Delete Item 5: The Contractor's daily rate is for an eight-hour day working at the site, which includes all labor, equipment, materials, and any other expense(s) to perform the work.

Reason: This is a lump sum contract; a daily rate does not apply.

All other bidding terms, requirements, and conditions continue as indicated in the remaining original bid documents.

The Purchasing Manager, Joyce McClane, is an officer for the City of Flint with respect to this RFP.

In the submission of their proposal, Proposer must acknowledge receipt of this addendum. Proposer shall acknowledge this addendum by signing and returning one copy of this notice with their submission.
