As a minimum, these reports shall include test results for reagent blanks, calibration check standards, and replicate samples, where applicable, and they shall include the warning and control limits used by the contractor for evaluating them.

The QA/QC program shall include participation in each annual EPA Discharge Monitoring Report - Quality Assurance (EPA DMR-QA) Laboratory Performance Evaluation Study, in accordance with the instructions for the study.

A current copy of the contractor's QA/QC program manual shall be provided to the City prior to initiating service and updated copies shall be provided to the City as needed.

With or without prior notice, City of Flint officials shall be allowed to occasionally inspect the contractor's laboratory to verify that services are being done properly, in accordance with the special requirements stipulated herein.
