

Frequently Asked Questions

HOW do I set out recycling for pickup?

Place recycling, garbage, and yard waste 10 ft. apart from each other at the curb.

WHAT if my bin is full?

Use another plastic container, cardboard box or garbage can, being sure these items are next to your recycling bin.

HOW should items be put in the bin?

Place lighter weight items on the bottom and heavier items on top to prevent litter.

WHEN is recycling collected?

Recycling is collected every other week. Go to www.republicservices.com/site/flint for a calendar of dates.

WHAT can I do with latex paint?

Unopened cans - Take to Habitat for Humanity

Opened cans (in useable condition) - Give to friends, family members, churches, preschools or community/college theater groups

Last Resort - Dry the paint out by opening the can, and adding cat litter, sawdust or a paint hardener, available at home improvement stores. Once hardened, put the paint can in a bag and deposit in your garbage.

HOW can I dispose of hazardous waste, other than at the spring and fall collections?

Note: These collections are not provided by Republic Services.

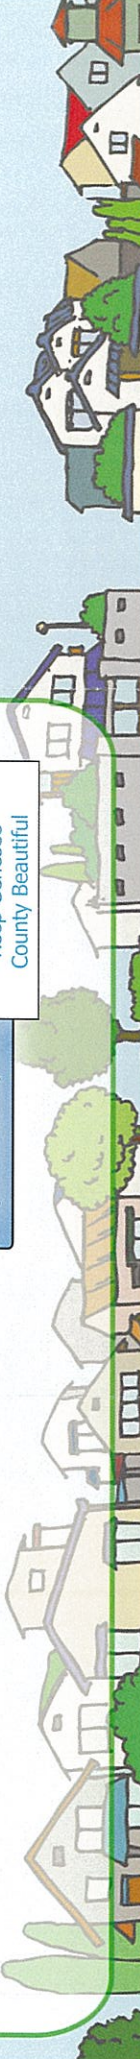

There are many places to take hazardous and/or electronic waste year round. If you would like to find out where to take any of the following items before the next collection, or if you'd like to be added to a notification list for future collections, please contact KGCB at 767-9696.

- Household batteries (AAA, AA, etc., and also hearing aid, watch, and calculator batteries)
- Lead acid batteries (auto, marine and tractor batteries)
- Motor oil
- Brake fluid
